REPUBLICAN SCHEME TO CARRY THE TERRITORY

Muskogee, I. T., June 30.—The republican organization in Indian Territory is not going to lose any time about getting before the commission in making constitutional districts the figures on where the big republican population is. Neither is the organization going to be in a hurry about turning in to the same commission the growth in population that it has found in the Choctaw and Chickasaw nations by the political census that it is taking.

The plan of the republican machine is already apparent. It is to show a heavy increase in population in the republican districts, and a light one in the democratic districts since the last Federal census was taken in 1900. The idea is advanced by a republican newspaper or two, and it was corroborated by A. J. Archer in the interview yesterday. Mr. Archer is in charge of the republican headquarters for Indian Territory at Muskogee.

Mr. Archer said, "We are taking a complete political census of the entire Indian Territory. Within sixty days we will have all of the northern part of the territory, including the Creek, Seminole, Cherokee and Quaw-

paw nations covered. It will take longer than that to complete the work in the Choctaw and Chickasaw nations. We expect to have this information at hand for use by the commission that is to make the constitutional districts, except that of the Choctaw and Chickasaw nations. We are not pushing the work as fast in some parts of the territory as in others. The immigration has not been so heavy in these nations as the others since 1900, and the census of that year will be a better guide for those nations than for the others."

This same statement has been advanced editorially in republican newspapers, and the two big southern nations are already raising a howl. They claim that the increase in population there has been as great as anywhere else and that they are entitled to just as many delegates to the constitutional convention as the other nations where there is a big republican vote.

Thank You.

In behalf of the Ada Band I wish to thank, most sincerely, those who so ably assisted in the concert last evening.
L. T. WALTERS.

COMMITTEE ON ELECTION DISTRICTS GET TOGETHER

Muskogee, I. T., June 30.—Judges W. H. H. Clayton and Joseph A. Gill and Tams Bixby, the committee appointed by the president to apportion the election districts, consisting of fifty-five in Indian Territory portion of the new State, meets here today to outline their plan of work. It is thought that the work will be carried on at once now, as both courts presided over by the Judges have adjourned for the summer.

It is known that the sittings of the committee will be in this city, for the reason that the Dawes Commission has complete maps and other valuable information not otherwise obtainable without an enormous expense.

Democratic Call.

The Indian Territory Democratic Executive Committee is hereby called to meet at Shawnee on Monday, July 9, 1906, for the purpose of transacting such business as may properly come before it.

Fred Parkenson, chairman,
W. W. Hastings, Secretary.

President Signs Bills.

Washington, June 30.—The President last night at 11:15 signed the railroad rate bill. He also signed the naturalization bill and the bill for the construction of a lock canal across the Isthmus of Panama.

CONGRESS ADJOURNS AFTER MEMORABLE SESSION

Washington, June 30.—Yesterday was the last day of Congress, for today it will adjourn at 3 o'clock. There was even some hope that by staying in session until after midnight it could avoid another session, but eager as the members are to escape the stifling heat of Washington, several things prevented this consummation, one of them being that the engrossing clerks will not be able to finish their tasks until after noon of today.

The conference difficulties which have been preventing adjournment were rapidly disposed of yesterday. The report on the rate bill was brought in. It occasioned some rather desultory debate, and was then adopted in a manner which made a ridiculous climax for the great struggle which has marked the progress of this measure. At the moment it became an act of Congress, so far as the legislative body can make it, there were not twenty people in the galleries, and indeed, there were hardly so many senators on the floor, and what was a singular circumstance, none of those senators who engaged so actively in the debate of two months ago were present when the final question was put. The vice president sat mopping his brow with one hand and fanning himself with the other. Mr. Bacon had just sat

down after making a few criticisms of the report. Mr. Fairbanks waited a moment. No one else seemed disposed to speak. The senate had exhausted itself.

"All in favor of agreeing to the conference report will say aye." Silence. "All opposed will say no." Silence. "The ayes have it and the conference report is agreed to," declared Mr. Fairbanks, whereupon he resumed the fanning and mopping of his brow. In this perfunctory way did the rate bill, "the most important legislation since the Civil War," become an act of Congress.

Afterwards the conference report on the pure food bill was adopted, and then the senate waited impatiently for the report on the agricultural appropriation bill, which provides for the inspection of meats. But on this it had yet to endure some further debate, after which the conferees retired to fix up the report in accordance with the demands of the house. The report is in the terms of the agreement made privately two days ago. The government pays cost and there are to be no tell-tale dates on the cans. The general deficiency and the public buildings bill are, at this moment, still in conference. When these are disposed of congress will be ready to adjourn.

FRANTZ SAYS HE WILL NOT RETIRE FROM POLITICS

Guthrie, O. T., June 29.—Governor Frantz states that there is no truth in reports that he intends to resign his position as governor of Oklahoma and get out of politics. He also says that he has no intention of becoming a major in the regular army as has been reported. "I intend to stay right here in Oklahoma," said the governor. "I have no intention of resigning as governor of Oklahoma, and am not tired of politics. I have had all I want of the army for the present, and am satisfied to remain in civil life."

A democratic paper contains an article stating that Governor Frantz had declared to close friends that he intends to leave politics as soon as he can without injuring his party, and that he has no desire to hold office in the new state.

Friends of Governor Frantz state that he never was in better position to gain advantage by remaining in politics. As a member of the board which will form the districts for the constitutional convention, Governor Frantz will be able to perform a great service for his party and the new state. He is in harmony with the present republican territorial

organization, and can reasonably expect consideration from that source if he should be a candidate for any position of trust in the new state. He has been a resident of Oklahoma for a number of years and is familiar with conditions here.

It has been stated that Governor Frantz will be a candidate for governor of the new state, although he has not committed himself on that subject. Certain factional interests are making a strong fight against the Governor and some of his former political friends have turned against him and are lending assistance to the inspectors who were sent to the Territory by the interior department to investigate Frantz's record. His enemies are mostly from the ranks of those who have disapproved appointments he has made and not within the camp of the republican party of Oklahoma as represented in the county and territorial organizations.

It is believed that Frantz's friends will ask him to enter the gubernatorial race in the new state and that a boom will be started in the interests of his candidacy within the next few months.

LEADING INDIANS WILL ESPOUSE DEMOCRACY

Kinta, I. T., June 30.—To show the drift of Indian sentiment, politically, in the Choctaw nation, it is common talk in this vicinity that when the campaign opens in full in greater Oklahoma, Green B. McCurtain, governor of the nation, will not only espouse the democratic party but he will enter actively into the arena.

Hitherto it has been Governor McCurtain's policy to keep aloof from politics as being more becoming to his position as long as he was governor and had to deal on behalf of his people with the department of the interior.

Those who know the governor best declare that, like General Pleasant Porter of Muskogee, the governor of the Creek nation, he has always been a democrat at heart. In South McAlester it is also understood that the governor's son, D. C. McCurtain, the prominent lawyer, will cast his fortune with the democratic party.

If the trend of the Indians may be told by their leaders' positions only the full-bloods will remain with the republican party. In the Cherokee nation, however, William C. Rogers is not only a democrat, but a democrat of the old school who has always taken an active interest in his party and who will take an active part in the

coming campaign. Governor Brown of the Seminole nation is a democrat as is Governor Johnson of the Chickasaws.

Land Opening Postponed.

Lawton, O. T., June 30.—Register H. D. McKnight, of the Lawton land office, has received word from J. T. Massy, chief clerk of the general land office at Washington, stating that in all probability the land opening here would not take place until September, as Secretary Richards is now in Wyoming and would not be back to look after it until that time.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

WITNESSES SUBPOENAED.

Preparing for Trial of Celebrated Katy Land Suit.

Muskogee, I. T., June 28.—The case of the Missouri, Kansas and Texas Railroad Company against the United States, in which the railroad seeks to recover every alternate section of land for twenty miles on each side of the right of way from the Kansas line to Texas, amounting to approximately 4,000,000 acres of choice agricultural lands in Indian Territory, will be heard in the Supreme Court of the United States, at Washington on the first Monday in October. The following named persons being Indians by blood in Indian Territory have been subpoenaed here today: P. Porter, principal chief of the Creek Nation; Wm. Fisher, Joseph Fisher, C. L. Bonham, Michael Fitzpatrick, Jennie C. Fitzpatrick, G. P. Roth, Samuel Johnson, Elmer Johnson, J. F. Ingram, David Whitlow, G. W. Grayson, Connie Murphy, N. B. Moore, D. A. Lee, Gogan Sarts, Jas. Childers, W. B. Rogers, Alex. Posey, W. N. Moore, Temye Cornells, John Jefferson, H. C. Reed, Sam Grasson, Geo. Malvern, A. J. Berryhill, Wattie Yahola, George Marshall, Robert Bruner, Sarah A. Ashbell and Jake Smith.

In addition to the above the following men being in the government service have been subpoenaed: E. A. Hitchcock, Francis E. Leupp, Tams Bixby, J. George Wright and Dana H. Kelsey. This is the celebrated case which is now campaign material for the Kansas election in November, owing to the fact that Gov. Hoch permitted the use of the name of the state as a party to the suit at the request of the railroad.

Jesus and the Children.

This is the title for the Sabbath school lesson tomorrow and is found in Matt. 18:1-14. School services at the Presbyterian church begin at 9-45. Everybody invited.

CANNON WILL TOUR.

To Boost Candidacy of Friends and Also His Own.

Washington, June 30.—It was said today that a number of well-to-do Republicans of the House contributed to a fund which is to be used to defray the cost of an all-star political tour which Speaker Cannon is to make during the months of September and October.

Primarily the purpose of this tour is to help the Republican members to get back to Congress. But it is also understood that another of its purposes is the promotion of the Speaker's desire to be president.

Since Mr. Shaw's misfortune in Iowa, as the result of local conditions, Mr. Cannon thinks that he as a "standpatter" has a larger opportunity, and while heretofore he has been courting his party in very coquettish fashion his advances hereafter, it is said, will be more bold. How bold will depend on what encouragements he gets during his tour next September and October, while the decision itself will depend on the whispering of the ballot box in November.

Rude and Inelegant.

She was from Boston, he from Oklahoma. "You have traveled a good deal in the West, have you not, Miss Beacon?" "Oh, yes, indeed—in California and Arizona and even in New Mexico." "Did you ever see the Cherokee Strip?" There was a painful silence, but finally she looked over her glasses at him and said: "In the first place, sir, I deem your question exceedingly rude; in the second, you might have been more refined in your language by asking me if I had ever seen the Cherokee disrobe."—Ex.

Sulphur Notes.

Sulphur, I. T., June 30.—J. M. Bayloss has leased the magnificent New Artesian hotel to Mr. E. B. Atwood, late manager of the Antlers at Colorado Springs, Col., who will at once come and take charge. The hotel will be opened to the public July 4, and will be the equal of any in the new state.

Capt. W. G. D. Hinds, formerly proprietor of the State Capital at South McAlester has purchased the Herald from the estate of the late W. L. Knotts, deceased and will make a semi-weekly out of it.

The Catholic people are to begin the erection of a church here shortly on their magnificent property at Tahlequah avenue and Seventh street East and Oklahoma avenue.

A new National bank with a capital stock of twenty-five thousand dollars has been organized and will begin business at once. This makes two national and two private banks for Sulphur.

Several Kinds of Potatoes.

Four thousand different varieties of potatoes have been planted on the farm of Luther Burbank the Santa Rosa (Cal.) horticulturist, constituting part of 12,000 species of the tuber family with which Burbank has experimented this year in his plans to give the world another new potato.

RARE ORCHID AGAIN FOUND

Plant Long-Sought Has Been Rediscovered on Recent Thibet Expedition.

An orchid which for 50 years has baffled all the attempts of collectors to find its native haunts has been rediscovered. This orchid is the cypripedium Fairleanum, which is one of a random collection made in Assam in 1857, sent to London in the same year and bought by a Mr. Fairlie, of Liverpool, in whose possession it bloomed and was daily hailed and described in orchid literature as one of the most beautiful orchids hitherto known. Several other plants of the same orchid came with it, and the species was at once named Fairleanum, after Mr. Fairlie.

From the day of its first discovery, in spite of scores of expeditions and perilous journeys by collectors, not a single plant was found until some member of the Thibet expedition, a few months ago, discovered a whole bunch of the plants. He sent them along to Calcutta, whence two were dispatched to Kew, and others are gradually coming through to England.

"Probably another 50 years will elapse ere more Fairleanum are found," said a British specialist, "for no private collecting expedition is likely to venture into such a country. My own belief is that unless another military expedition traverses the same ground there will never again be a chance of getting plants."

The plant flowering at Kew has five growths and two flowers. The second plant is developing five blooms. The flower has a slender, hairy scape about ten inches in height, a prominent and charming dorsal sepal, one and three-quarters inches in length by one and one-quarter inches in breadth, with a white ground beautifully veined with violet purple and with brownish green veins near the center and whitish hairs around the margins. The petals droop and have an upward curve at the tips; they are one and one-half inches in length, with a white ground streaked with purple and yellow. The upper margin of the petals is much undulated and covered with prominent purple hairs. The pouch is rather small, greenish-brown in color, veined with brownish red and covered with short hairs.

THE PILLAGER INDIANS.

Hereditary Home of a Tribe Who Trace Back Perhaps Twenty Centuries.

A long, deep, clear and very cold body of water called Brunside lake, north of Lake Superior near the Canadian boundary, contains, among over 100 other beautiful islands, a certain sunny islet that is of great interest to the archaeologist.

These islands and waters, writes Frank Abial Flower, in Records of the Past, constitute the hereditary home of the Pillager Indians, who are pagans. * * * One of these islands (known as Flower island) is, as it has been for generations, the seat of the Pillager kings. On it sleep, according to tribal tradition, over 50 successive Pillager rulers, the ancestors of the present chief or king, who, he says, must have reigned an average of 30 or 40 years each, as he himself has been chief for more than half a century.

Think of a dynasty extending over a period of perhaps 20 centuries! The more modern graves are carefully roofed with cedar bark, which, when kept dry and away from the earth, is almost imperishable. The very ancient graves have been essentially obliterated by the ravages of the elements. At the head of each of the traceable graves is carved the peculiar heraldic insignia of the king who sleeps beneath, and above him are placed receptacles for the mah-no-min (wild rice), fish, berries and other food which are brought annually by the related members of the tribe to appease, as they suppose, the hunger of the departed.

Extravagance for the Dead.

Burial customs were once modest with our people. But complicated and costly living appears to have made simple dying impossible, remarks the New York Mail. We run to weak ostentation in the surroundings and trappings of mortality. It is necessary to obtain this, to purchase that; it is the only good form, nothing else will do. It is the consideration of the living that we think about, not the simple respect due the dead. We forget that the costlier the earthly memorial we erect the shallower may be the record that we cut upon the tablets of our hearts.

Pleasant for Him.

"I was so sorry to hear of your daughter eloping with young Badger—" "You needn't console with me," interrupted Henpeck. "I'm tickled to death." "But he's such an impertinent upstart." "Well, it'll be a positive joy to have some one in the family who can talk up to my wife."—Philadelphia Ledger.

A Furman Club.

It is now confidently expected by Judge Henry M. Furman's fellow townsmen that his candidacy for the United States Senatorship will be formally launched within a few days.

The democrats of the 16th District are unanimously for him, in fact, practically the entire citizenship of this part of the Chickasaw country, regardless of politics, will support this Moses of the people. Judge Furman's fellow townsmen look with especial approval on his candidacy. No more popular candidate with his home people could possibly live. Ada is proud of her Furman, and those of her citizens who have carefully watched the political situation as refers to the senatorial prospect view with particular gratification the unmistakable evidences of his great popularity with the democracy all over the state.

In consideration of the aforesaid conditions, certain Ada citizens have issued a call for the democrats of Ada to meet at the United States commissioner's court room this evening for the purpose of organizing a Furman Democratic Club. Let every Furman democrat—and that means everybody—turn out.

Tramp Philosophy.

The correspondent of a New York paper writes of a philosophical tramp whom he met in Massachusetts. The man, who said his name was William Hicks, had clothes that hung in looped and windowed raggedness, but he refused to accept others. In the course of a lengthy interview Mr. Hicks uttered this peice of more or less conclusive philosophy, "I do what I please, and doing what I please, I have my will, and having my will, I am contented, and when one is contented there is no more to be desired, and when there is no more to be desired there is an end to it."

Busby a Possibility.

Wm. Busby of South McAlester has been honored by the Republicans in charge of the big McGuire statehood reception, with the tender of presiding officer during the day's celebration July 2, at Guthrie. Mr. Busby will probably accept.

Politicians see in this a new move by the Frantz-McGuire ring for favor in Indian Territory. Col. Busby is rated as a man whose support is worth something. Having secured the Clayton administration for the band wagon exhibition it appears that the Busby following is worthy of the effort and McGuire is anxious to cement all party dissensions across the line in Indian Territory.

Whether Mr. Busby has political aspirations or not is a secret, but it is believed he likes to play the game and has developed a following quietly that is responsible for the prominent mention of his name in connection with senatorial and congressional nominations appearing from time to time in the Guthrie reports.—S. McAlester Capital.

A Porch Recital.

At the home of Dr. Shands next Monday night under the management of their music teacher, Miss Case, little Misses Jewell Broadfoot and Katherine Reed will give a porch recital. They will be assisted by Miss Mildred Reed. The entertainment will be free and the public is invited to attend. Ample seats will be provided on the lawn for the audience. A delightful program is arranged for the occasion.

JULY 4th.

To accommodate the extra travel July 4th, the M. K. & T. will run special train leaving Atoka 6 a. m., arriving at Oklahoma City 11:30 a. m. Leave Oklahoma City 6:30 p. m. arriving at Atoka 11:30 p. m. This train will make stops at all stations.

Deadly Serpent Bites

are as common in India as are stomach and liver troubles with us. For the latter however there is a sure remedy: Electric Bitters; the great restorative medicine, of which S. A. Brown of Bennettville, S. C. says: "They restored my wife to perfect health after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by G. M. Ramsey and Dr. F. Z. Holley, Druggist. Price 50c.

Following the Flag

When our soldiers went to Cuba and the Philippines health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases." Guaranteed at G. M. Ramsey's and Dr. F. Z. Holley, Druggist. Price 50c and \$1.00.

Out of 20 Kinds the Best.

"Ship one gross Dr. Mendenhall's Chill and Fever Cure. It gives the best satisfaction of about 20 brands I carry."—J. R. Hafford, druggist, Rector, Ark. Children like it. Sold on a signed guaranty by G. M. Ramsey druggist.

Vigor of Our Students.

A well known English educator says that of all students in the world American students show the greatest energy and enthusiasm. This he believed to be due to the fact that American universities have no courses comparable to the exhausting "trips" at Cambridge. As a result the American preserves his freshness and enthusiasm while the Englishman is intellectually tired.

To Time Chess Players.

A chess player's time-keeper is the novelty of Herr Veehoff, of Groningen. It consists of two similar small clocks, behind which is a double lever so arranged that B can touch a button to start the clock of A as the latter begins to move, and A can touch another button to stop his own clock and start the other as B's play commences. At the end of the game the clocks show the total time taken for the moves of each player.

Hair and Insanity.

According to Dr. Hobart Langdon, says the Medical Times, only three per cent. of the total number of insane people have light hair. His figures are obtained from 68 asylums; 96 per cent. of the inmates were brunettes, with either black or brown hair. In one asylum in New England there was not a single inmate that was not a brunette.

Novel Outing.

A Gospel song outing is the latest thing in the way of amusement in Philadelphia. A crowd of people hire a special trolley car for the evening, then start on a tour of the city, singing hymns. It is said that not only the people in the car but those on the sidewalks and in the houses enjoy the singing.

Two Captains on Liners.

The Hamburg-American company is beginning to follow the plan of having two captains for each large steamer. The extra cost is more than counterbalanced by the diminished liability to accidents, which the insurance companies recognize by granting lower rates.

Maligned Insect.

The much maligned white ant of South Africa is credited by a resident of Swaziland with doing more good than harm if care is taken of buildings. It has a wonderful fertilizing effect on the soil, and maize and other crops grow twice as large near ant hills as elsewhere.

Visitors Part with It There.

Where on earth does Paris get all its money? It seems that when big corporations in any part of the world want to borrow they go to the French capital, and there never is any trouble about the loan if the security is forthcoming.—Los Angeles Times.

Unique Piece of Work.

A famed scroll work, consisting of buttons sewn on a silk ground, has been sold by auction in North London. It was the work of the wife of a country parson, who thus utilized buttons found in the offertory bags in her husband's church.

Humane Dog Catching.

In Germany stray dogs are captured in a fashion that appeals strongly to the humanitarian. Instead of being lassoed with a noose as in this country, they are scooped up in a huge dip net.

Eight-Hour Day for Society.

There should be an eight-hour day for "fashionable" women. We cannot talk scandal continuously for 12, as we do now—the excitement and the strain upon the imagination are terrific.—London Truth.

Prolificacy of the Potato.

If there were but one potato in the world, a careful cultivator might produce 10,000,000,000 from it in ten years, and thus supply the world with seed again.

Sweet Innocence.

Cynical Bachelor—How long do you think the honeymoon lasts?
Sweet Sixteen (with open-eyed wonder)—Why, forever.—Somerville Journal.

Respectability.

To be respectable implies a multitude of little observances, from the strict keeping of Sunday down to the careful tying of a cravat.—Victor Hugo.

Proof of Good Judgment.

Hicks—Your wife is a mighty sensible woman, isn't she?
Wicks—Sure! She married me.—Somerville Journal.

The "Skypiece."

Automobile caps are frequently worn by young men who couldn't buy an automobile if they were selling for five dollars a dozen.

Average Income.

The income of the average American, according to the United States census, is about \$650 a year.

No Room for Smell.

People who live in flats should not boil cabbage.

Way of the World.

Most people would rather be miserably rich than happily poor.

Unpalatable.

On one of his expeditions into central Africa Prof. Drummond found himself among cannibals, who cast longing eyes on his person. It became necessary to make an impression, so Drummond produced a powerful magnifying glass, and after an eloquent exordium called down "fire from heaven" by setting fire to some grass by concentrating the rays of the sun through the glass. After this the natives had no appetite for a white maciala and Drummond went on his way rejoicing, laden with native offerings.

Name of Beef Cut.

"Porterhouse steak," says Dr. Ephraim Cutter in the Dietetic and Hygienic Gazette, "is the sirloin and tenderloin combined. Porterhouse steak is a term arising, according to the Standard dictionary, from a New York eating house; but I believe the name was derived from the owner who kept Porter's tavern, which is still extant in North Cambridge, Mass. This tavern was famous in its day for its steaks, and a favorite resort for roadsters."

Dude in Town.

Wonder what George Marston is doing here riding muleback, says the Sequachee (Tenn.) News. He passed by here Sunday with his two-story collar on and with both hands in his pockets up to his elbows, with his feet lying between the mule's ears. He had his shoes shined, and he didn't want them soiled. His mule was so small that his feet would drag.

Weather Forecasts for Farmers.

The German government is making preparations for the issue shortly of weather forecasts for agriculturists. The forecasts will be sent free or at a nominal charge, and the success of the undertaking will be judged from returns of the subsequent weather supplied by the recipients of the information.

Scandalous Impudence.

At the art exhibition indignant husband points out to wife a study of a picturesque beggar. "This is shameful, my dear. What are we coming to? Here's a man to whom I'd give a coin if I saw him in the street, and yet he can afford to have his portrait done in oils!"—La Rive.

His System.

"How do you dispose of your garbage here?" asked the stranger, who was gathering data for purposes of publication.

"We always throw ours in the garbage can," said the man with the chin beard "but I don't know, of course, about the neighbors."

Queer Mania.

A man who was arrested for breaking into a house in Berlin explained that he only wished a pair of shoes belonging to a celebrated Russian pianist who was staying in the house. A collection of women's shoes, all docketed and catalogued, was found in his room.

About the Tongue.

Pungent and acid tastes are perceived by the tip of the tongue; the middle portion tastes sweets and bitters, while the back, or lower portion, concerns itself with fatty substances, such as butter.

Rub-a-Dub Fish.

A fish that drums is found in the waters of Mauritius harbor. When caught and held in the hand, a vibration of the skin behind the gills is to be seen and a delicate rub-a-dub, as of a distant tenor drum, is heard.

Here Is an Optimist.

Moris Young said he was glad they got 13m to play at the dance. He got to see all the pretty girls, if he didn't get to dance with them.—Sequachee (Tenn.) News.

One Apology Not Made.

When a woman has company, says Maj. Conway, she will apologize for everything about the table except the man she picked out to sit at its head.—Kansas City Journal.

Double Words.

Forty-eight words in the English language have two distinct pronunciations. "Bow," "tear," "invalid" are the best examples.

Becomes Infallible.

If a woman accidentally makes a prediction that comes true, what remarkable things she can feel in her bones ever after!

British Africa.

England is to-day the virtual ruler of 3,300,000 square miles of African territory.

Tigers in Burmah.

Tigers are greatly on the increase in Burmah, owing to recent legal restrictions on the carrying of arms.

Titled Directors Dropped.

London Truth notes that the titled director is being dropped by company promoters.

Something Smell.

A Washington woman uses perfumed gasoline in her motor car.—Chicago Daily News.

Japan's Museums.

Japan has 40 commercial museums and the government labors steadily to improve them.

Neckties on Reels.

Haberdashers now keep plain ribbon ties on reels, the way tape is sold; but instead of having to take the whole roll a length of tie is snipped off for each customer. The advantage of the reel is that a tie will fit the size collar worn by the buyer. Formerly different lengths had to be kept in stock, but now thin necks or fat ones, small or large, may each be fitted accurately by cutting a piece off the reel.

Practical Response.

New Minister—"I'm glad to see my sermon on charity met with so practical a response. Members of the congregation were dropping money into the box all through the sermon." Sidesman—"Oh, no, sir. You see ours is a penny-in-the-slot meter, and we should have been in darkness if we hadn't attended to it."—London Tatler.

Forbidden by Parcel Post.

In Holland potatoes are not received in the parcel post, Denmark will not receive almanacs, and Egypt will not permit sausages to be posted. Germany refuses anything of American origin, and has some clauses directed against Japan; while air-guns, maps, wax matches, rosaries, relics and jewelry are the miscellaneous lot barred by Spain.

Earth Growing Warmer.

That the earth is growing temporarily warmer is shown by the mountain glaciers. These are made by varying temperature and moisture to increase and diminish in size during periods of years that may be found to be more or less regular cycles, and a period of quite general decrease began about 45 years ago.

Too Romantic.

The following doubtful compliment is a fragment from a love letter:

"How I wish, my darling Adelaide, my engagements would permit me to leave town and come and see you! It would be like visiting some old ruin, hallowed by time and fraught with a thousand recollections."

On Love.

"When a feller loves a gal," said the Paint Rock philosopher, chewing a violet, "he thinks that every other man he knows is his rival for the gal's affections. And when he finds out that this ain't actually the case, why then," chuckled the philosopher, "he's no longer in love."

She Understood.

"Yes," said the man who was beginning to sour on the national sport, "it's interesting sometimes, but baseball nowadays is becoming very dirty."
"Oh," exclaimed his fair companion, "I understand now why all those players are wearing gloves."—Philadelphia Press.

Washington Foretold It.

A bill recently introduced in congress provides for the drainage of the great Dismal swamp, of Virginia, thus fulfilling the prophecy made 100 years ago by Gen. Washington that some day the swamp would be converted into farm lands.—Farming.

Parliamentary Measles.

A British health officer received the following note from one of the residents of his district: "Dear Sir: I beg to tell you that my child, aged eight months, is suffering of measles as required by act of parliament."

American Books in Canada.

American literature is found in every Canadian home, writes Consul Seyfert from Stratford. The village and city libraries are filled with American books and American periodicals predominate.

Perfectly Willing.

E. Bangs Izzair—May I—aw—have the next vase?

Letta Sloan—I haven't the slightest objection. That's the one I don't—aw—dawnce.—Chicago Tribune.

Honeymoon Over.

When a man will eat spring onions at a free lunch before going home in the evening it is a sure sign that the honeymoon is a thing of the past.—Detroit Free Press.

Mammoth Mirror.

A record-breaking plate-glass mirror, in the dining-room of the Savoy hotel, London, is 158 inches square and half an inch thick.

White Gloved Executioner.

The public executioner of Austria wears a pair of new white gloves every time he carries out a capital sentence.

He and She.

When a man decides to go anywhere he begins packing his suit case. When a woman decides to go she begins making a shirt waist.

The Beginning.

Knicker—Primitive men plowed the earth with a sharpened stick.
Bocker—You don't mean to say golf dated that far back?—N. Y. Sun.

Wrong Thing.

At a wedding do not say, "May the best man win."

Has Fewest Doctors.

Russia has the fewest doctors of any civilized country.

Norwegian Moss.

Prof. Hansteen, of the agricultural school at Aas, Norway, finds that a greenish-white moss common in that country can be converted into delicious and nutritious food by being subjected to a chemical process, compressed and cooked. He says that nine ounces of moss, costing two cents, will make a good dinner for six persons—which is evidence that his zeal outruns his discretion, inasmuch as an ounce and a half of food is not enough to make a substantial meal for a normal man or woman.

Locusts in Algeria.

Locusts are devastating southern Algeria. The swarms are so great as almost to defy imagination. It is not easy to conceive of an almost solid phalanx of insects 125 miles long by six miles wide. Unfortunately, the devastation which such myriads of voracious insects must create in vegetation is not so difficult to appreciate. Wherever the host has passed nothing green remains. Even the houses are becoming uninhabitable. The Oran province seems doomed for this year.

Oyster Culture.

The Maryland shellfish commission is studying oyster culture in the proper way by learning in Connecticut just how the thing is done. Oyster culture has long been practiced in France and Japan, to say nothing of Virginia. Many years ago Dr. Brooks' book on the subject laid down the principles that underlie the successful prosecution of the industry.

Oldest Negro Lawyer.

Thomas P. Johnson, 94 years old, the oldest negro lawyer in Arkansas, died recently after 36 years' active practice of law. He was licensed as an attorney by Associate Justice Bowen, of the Arkansas supreme court, in July, 1870. He was a slave, and belonged to a planter in Desha county, in Arkansas.

Good Army.

The governor of Herat has presented the following report to the ameer of Afghanistan: "The behavior of the army is satisfactory, and there have been no cases of serious crime. The Herat army now says its prayers five times a day, and the men are becoming pukka (very good) Mussulmans."

No Admiration for Actresses.

Dr. Light is in Wichita to-day attending to professional business and expects to take in the Bernhard performance to-night just for instance, although our Dutch blood doesn't care two whoops in a rain barrel for these crazy French actresses.—Kingman (Kan.) Journal.

Metal Getting Scarce.

Aluminum has suddenly come into use for so many purposes where copper and brass were formerly employed that the supply is everywhere far short of the demand. The automobile manufacture is largely responsible for the shortage.

Great Sewer System.

If the sewers of New York city were placed end to end in a straight line they would reach from there to Pike's Peak, 1,710 miles, and the paved streets of the city would make a road along one side of them all the way.

No Happy Medium.

"Yes, I'd be willing to get married if I could only get a wife who was economical and—"

"My dear boy, no woman is ever economical. She's either extravagant or stingy."—Philadelphia Press.

Greatest Street Car City.

New York beats the cities of the world in the length of its street railway tracks. If in one single track its surface, elevated and subway system would extend in a straight line for 1,018 miles.

See Few American Vessels.

Only two American vessels have entered the harbor of Bordeaux in ten years, and those were private yachts which sought refuge during the Spanish-American war.

Country Mail Delivery.

Rural free delivery was established under President McKinley in 1897. During the fiscal year ended 1903 there were 15,119 routes in operation, with 11,700 petitions pending.

Too Intricate.

Perhaps men are as deceitful as women in some things, but they never attempt to transform a yawn into a smile.

Mexican President a Nimrod.

President Diaz returned the other day from a hunting trip with three mountain cats and 17 deer. Mexico's president is only 76.

Horses Come High.

A good carriage horse in Australia costs \$200 or four times as much as the cost 15 years ago.

Poor Management.

The Athens correspondent of the London Mail says the management of the Olympian games was "chaos."

Busy Bodies.

Too many people look for their duty next door.

Bread Vendors in Asia.

Bread is sold from boxes strapped to donkeys in Asia Minor.

Hard to Cure.

"I'm glad to hear that Flatman has inherited a fortune and bought a good farm with it. How does he like living in the country?"
"Splendidly. But when the first day of last May came he forgot himself and went around absent-mindedly looking for a new farm, under the impression that he had got to move."—Chicago Tribune.

Explosive Dust in Mines.

Recent explosions in coal mines have shown that the fine dust which settles on the timber and sides of roadways is an element of serious danger. The risk is kept at the minimum when and where the dust is removed as much as possible and the currents of air forced into the mine through ventilating shafts are made as dry as practicable.

Submarine Monotony.

As a rule with few exceptions, the surface of the earth under the oceans is devoid of striking and abrupt contrasts. It would be monotonous if it were brought to view. The action of the water and the depositing of organic and other matter settling down through the sea have smoothed down the greater part of the subaqueous earth and left it far from picturesque.

Never Lived There.

"Where did you learn the Lord's Prayer?" asked an Atchison Sunday school teacher of a little girl.
"I used to live in Topeka," said the little girl, "and I learned it there."
"Now let me hear you say it," said the teacher to the next little girl.
"I don't know it," said the next little girl; "I never lived in Topeka."—Kansas City Journal.

Labor Unions in Holland.

Every department of labor is united in Holland and all other departments. So the other night the spectacle was seen at the Amsterdam opera house of a crowd of bootmakers and cobblers wrecking the performance of an opera for which nonunion choristers had been enlisted.

Use for Boys.

The ever burning questions: "What shall we do with our boys?" seems to be satisfactorily answered in the following advertisement, which appears in the window of a Farmington road butcher's shop: "Wanted, a respectable boy for beef sausages."—London Tribune.

Feminine Financier.

Disappointed at not winning a prize at school, a girl of Grimby, England, went to a shop and obtained three pairs of boots "on approval." She pawned the boots, and with the proceeds bought some books, which she triumphantly exhibited at home as school prizes.

Expansion of Opals.

The reason why opals are often lost from their settings is that they expand with heat more than other precious stones, and, consequently, force open the gold which holds them in place, with the result that they ultimately fall out.

She Must Know How.

Under a new law, says Health, of New York, in Norway every would-be bride must exhibit a certificate that she knows how to cook. In Norway a dyspeptic is regarded as a natural curiosity.

"Bad Man" Gone.

In the new Nevada the "bad man" is a missing figure, and the contrast between these present-day camps of Tonopah, Goldfield and Bullfrog, and their predecessors of the Comstock, is wide and impressive.—Outing.

German Women Domestic.

Germany is one of the countries where cycling is taken up least by women. German women seldom go in for much outdoor exercise; they are distinctly domestic in their habits.

Material at Hand.

The gaekwar of Baroda intends to have a baseball nine or two when he gets home. There are some players he can have cheap, without making any references to allusions.

Everlasting Blotter.

The Austrians use a stone blotting-pad that never wears out. A little scraping with a knife cleans it effectually.—Philadelphia Bulletin.

Good Thing.

Mrs. Poppy—I couldn't live a day without you.
Mr. Poppy—That'll save life insurance.—Los Angeles Herald.

Women Burden Bearers.

The women of Scotland carry heavy loads on their backs in baskets, which are strapped around their waists and over their shoulders.

Then an Auto.

The first thing that a girl baby learns to ask for is candy and the second is money.—Chicago Daily News.

Unwilling Service.

There is nothing so easy but that it becomes difficult when you do it with reluctance.—Terence.

Money with Immigrants.

Our million immigrants a year are bringing with them \$25,000,000 a year, besides their labor.

Revelation.

In the midst of his passionate declaration she yawned slightly. Though with her white and jeweled hand she attempted to conceal the movement, it did not escape him. His torrent of burning words ceased. The light died in his eyes.
"But why," he said, hoarsely, "why speak to you of love? You are heartless—heartless. Your yawn showed it."
"Oh, Clarence," she whispered, horror-stricken, "did I open my mouth as wide as that?"

What Lunar Athletes Could Do.

The "man in the moon" must surely regard with amused contempt our much-vaunted athletic records. A good terrestrial athlete could cover about 120 feet on the moon in a running broad jump, while leaping over a barn would be a very commonplace feat. He would find no difficulty in carrying six times as much and running six times as fast as he could on earth, all because the moon attracts bodies with only one-sixth of the force of the earth.—Springfield (Mass.) Republican.

Carried Bullet Long.

J. D. McFall, of Wichita, Kan., had half of a grape-shot removed from his right leg. The ball entered his leg at the battle of Shiloh, on April 6, 1862, 44 years ago. The ball was split in two at the time it entered his leg and it weighed nearly a pound. After carrying this shot around all these years it began to hurt him for the first time recently.

High Happiness.

REPUBLICAN SCHEME TO CARRY THE TERRITORY

Muskogee, I. T., June 30.—The republican organization in Indian Territory is not going to lose any time about getting before the commission in making constitutional districts the figures on where the big republican population is. Neither is the organization going to be in a hurry about turning in to the same commission the growth in population that it has found in the Choctaw and Chickasaw nations by the political census that it is taking.

The plan of the republican machine is already apparent. It is to show a heavy increase in population in the republican districts, and a light one in the democratic districts since the last Federal census was taken in 1900. The idea is advanced by a republican newspaper or two, and it was corroborated by A. J. Archer in the interview yesterday. Mr. Archer is in charge of the republican headquarters for Indian Territory at Muskogee.

Mr. Archer said, "We are taking a complete political census of the entire Indian Territory. Within sixty days we will have all of the northern part of the territory, including the Creek, Seminole, Cherokee and Quaw-

paw nations covered. It will take longer than that to complete the work in the Choctaw and Chickasaw nations. We expect to have this information at hand for use by the commission that is to make the constitutional districts, except that of the Choctaw and Chickasaw nations. We are not pushing the work as fast in some parts of the territory as in others. The immigration has not been so heavy in these nations as the others since 1900, and the census of that year will be a better guide for those nations than for the others."

This same statement has been advanced editorially in republican newspapers, and the two big southern nations are already raising a howl. They claim that the increase in population there has been as great as anywhere else and that they are entitled to just as many delegates to the constitutional convention as the other nations where there is a big republican vote.

Thank You.

In behalf of the Ada Band I wish to thank, most sincerely, those who so ably assisted in the concert last evening.
L. T. WALTERS.

COMMITTEE ON ELECTION DISTRICTS GET TOGETHER

Muskogee, I. T., June 30.—Judges W. H. Clayton and Joseph A. Gill and Tams Bixby, the committee appointed by the president to apportion the election districts, consisting of fifty-five in Indian Territory portion of the new State, meets here today to outline their plan of work. It is thought that the work will be carried on at once now, as both courts presided over by the Judges have adjourned for the summer.

It is known that the sittings of the committee will be in this city, for the reason that the Dawes Commission has complete maps and other valuable information not otherwise obtainable without an enormous expense.

Democratic Call.

The Indian Territory Democratic Executive Committee is hereby called to meet at Shawnee on Monday, July 9, 1906, for the purpose of transacting such business as may properly come before it.

President Signs Bills.

Washington, June 30.—The President last night at 11:15 signed the railroad rate bill. He also signed the naturalization bill and the bill for the construction of a lock canal across the Isthmus of Panama.

CONGRESS ADJOURNS AFTER MEMORABLE SESSION

Washington, June 30.—Yesterday was the last day of Congress, for today it will adjourn at 3 o'clock. There was even some hope that by staying in session until after midnight it could avoid another session, but eager as the members are to escape the stifling heat of Washington, several things prevented this consummation, one of them being that the engrossing clerks will not be able to finish their tasks until after noon of today.

The conference difficulties which have been preventing adjournment were rapidly disposed of yesterday. The report on the rate bill was brought in. It occasioned some rather desultory debate, and was then adopted in a manner which made a ridiculous climax for the great struggle which has marked the progress of this measure. At the moment it became an act of Congress, so far as the legislative body can make it, there were not twenty people in the galleries, and indeed, there were hardly so many senators on the floor, and what was a singular circumstance, none of those senators who engaged so actively in the debate of two months ago were present when the final question was put. The vice president sat mopping his brow with one hand and fanning himself with the other. Mr. Bacon had just sat

down after making a few criticisms of the report. Mr. Fairbanks waited a moment. No one else seemed disposed to speak. The senate had exhausted itself.

"All in favor of agreeing to the conference report will say aye," Silence. "All opposed will say no." Silence. "The ayes have it and the conference report is agreed to," declared Mr. Fairbanks, whereupon he resumed the fanning and mopping of his brow. In this perfunctory way did the rate bill, "the most important legislation since the Civil War," become an act of Congress.

Afterwards the conference report on the pure food bill was adopted, and then the senate waited impatiently for the report on the agricultural appropriation bill, which provides for the inspection of meats. But on this it had yet to endure some further debate, after which the conferees retired to fix up the report in accordance with the demands of the house. The report is in the terms of the agreement made privately two days ago. The government pays cost and there are to be no tell-tale dates on the cans. The general deficiency and the public buildings bill are at this moment, still in conference. When these are disposed of congress will be ready to adjourn.

FRANTZ SAYS HE WILL NOT RETIRE FROM POLITICS

Guthrie, O. T., June 29.—Governor Frantz states that there is no truth in reports that he intends to resign his position as governor of Oklahoma and get out of politics. He also says that he has no intention of becoming a major in the regular army as has been reported.

"I intend to stay right here in Oklahoma," said the governor. "I have no intention of resigning as governor of Oklahoma, and am not tired of politics. I have had all I want of the army for the present, and am satisfied to remain in civil life."

A democratic paper contains an article stating that Governor Frantz had declared to close friends that he intends to leave politics as soon as he can without injuring his party, and that he has no desire to hold office in the new state. Friends of Governor Frantz state that he never was in better position to gain advantage by remaining in politics. As a member of the board which will form the districts for the constitutional convention, Governor Frantz will be able to perform a great service for his party and the new state. He is in harmony with the present republican territorial

organization, and can reasonably expect consideration from that source if he should be a candidate for any position of trust in the new state. He has been a resident of Oklahoma for a number of years and is familiar with conditions here.

It has been stated that Governor Frantz will be a candidate for governor of the new state, although he has not committed himself on that subject. Certain factional interests are making a strong fight against the Governor and some of his former political friends have turned against him and are lending assistance to the inspectors who were sent to the Territory by the interior department to investigate Frantz's record. His enemies are mostly from the ranks of those who have disapproved appointments he has made and not within the camp of the republican party of Oklahoma as represented in the county and territorial organizations.

It is believed that Frantz's friends will ask him to enter the gubernatorial race in the new state and that a boom will be started in the interests of his candidacy within the next few months.

LEADING INDIANS WILL ESPOUSE DEMOCRACY

Kinta, I. T., June 30.—To show the drift of Indian sentiment, politically, in the Choctaw nation, it is common talk in this vicinity that when the campaign opens in full in greater Oklahoma, Green B. McCurtain, governor of the nation, will not only espouse the democratic party but he will enter actively into the arena.

Hitherto it has been Governor McCurtain's policy to keep aloof from politics as being more becoming to his position as long as he was governor and had to deal on behalf of his people with the department of the interior.

Those who know the governor best declare that, like General Pleasant Porter of Muskogee, the governor of the Creek nation, he has always been a democrat at heart. In South McAlester it is also understood that the governor's son, D. C. McCurtain, the prominent lawyer, will cast his fortune with the democratic party.

If the trend of the Indians may be told by their leaders' positions only the full-bloods will remain with the republican party. In the Cherokee nation, however, William C. Rogers is not only a democrat, but a democrat of the old school who has always taken an active interest in his party and who will take an active part in the

coming campaign. Governor Brown of the Seminole nation is a democrat as is Governor Johnson of the Chickasaws.

Land Opening Postponed.

Lawton, O. T., June 30.—Register H. D. McKnight, of the Lawton land office, has received word from J. T. Massy, chief clerk of the general land office at Washington, stating that in all probability the land opening here would not take place until September, as Secretary Richards is now in Wyoming and would not be back to look after it until that time.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of the vaneing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

WITNESSES SUBPOENAED.

Preparing for Trial of Celebrated Katy Land Suit.

Muskogee, I. T., June 28.—The case of the Missouri, Kansas and Texas Railroad Company against the United States, in which the railroad seeks to recover every alternate section of land for twenty miles on each side of the right of way from the Kansas line to Texas, amounting to approximately 4,000,000 acres of choice agricultural lands in Indian Territory, will be heard in the Supreme Court of the United States, at Washington on the first Monday in October. The following named persons being Indians by blood in Indian Territory have been subpoenaed here today: P. Porter, principal chief of the Creek Nation; Wm. Fisher, Joseph Fisher, C. L. Bonham, Michael Fitzpatrick, Jennie C. Fitzpatrick, G. P. Roth, Samuel Johnson, Elmer Johnson, J. F. Ingram, David Whitlow, G. W. Grayson, Connie Murphy, N. B. Moore, D. A. Lee, Goggan Sarts, Jas. Childers, W. B. Rogers, Alex. Posey, W. N. Moore, Temye Cornells, John Jefferson, H. C. Reed, Sam Grasson, Geo. Malvern, A. J. Berryhill, Wattie Yahola, George Marshall, Robert Bruner, Sarah A. Ashbell and Jake Smith.

In addition to the above the following men being in the government service have been subpoenaed: E. A. Hitchcock, Francis E. Leupp, Tama Bixby, J. George Wright and Dana H. Kelsey. This is the celebrated case which is now campaign material for the Kansas election in November, owing to the fact that Gov. Hoch permitted the use of the name of the state as a party to the suit at the request of the railroad.

CANNON WILL TOUR.

To Boost Candidacy of Friends and Also His Own.

Washington, June 30.—It was said today that a number of well-to-do Republicans of the House contributed to a fund which is to be used to defray the cost of an all-star political tour which Speaker Cannon is to make during the months of September and October.

Primarily the purpose of this tour is to help the Republican members to get back to Congress. But it is also understood that another of its purposes is the promotion of the Speaker's desire to be president.

Since Mr. Shaw's misfortune in Iowa, as the result of local conditions, Mr. Cannon thinks that he as a "standpatter" has a larger opportunity, and while heretofore he has been courting his party in very coquettish fashion his advances hereafter, it is said, will be more bold. How bold will depend on what encouragements he gets during his tour next September and October, while the decision itself will depend on the whispering of the ballot box in November.

Rude and Inolegent.

She was from Boston, he from Oklahoma. "You have traveled a good deal in the West, have you not, Miss Beacon?" "Oh, yes, indeed—in California and Arizona and even in New Mexico." "Did you ever see the Cherokee Strip?" There was a painful silence, but finally she looked over her glasses at him and said: "In the first place, sir, I deem your question exceedingly rude; in the second, you might have been more refined in your language by asking me if I had ever seen the Cherokee disrobe."—Ex.

Sulphur Notes.

Sulphur, I. T., June 30.—J. M. Bayloss has leased the magnificent New Artesian hotel to Mr. E. B. Atwood, late manager of the Antlers at Colorado Springs, Col., who will at once come and take charge. The hotel will be opened to the public July 4, and will be the equal of any in the new state.

Capt. W. G. D. Hinds, formerly proprietor of the State Capital at South McAlester has purchased the Herald from the estate of the late W. L. Knotts, deceased and will make a semi-weekly out of it.

The Catholic people are to begin the erection of a church here shortly on their magnificent property at Tahlequah avenue and Seventh street East and Oklahoma avenue.

A new National bank with a capital stock of twenty-five thousand dollars has been organized and will begin business at once. This makes two national and two private banks for Sulphur.

Several Kinds of Potatoes.

RARE ORCHID AGAIN FOUND

Plant Long-Sought Has Been Rediscovered on Recent Tibet Expedition.

An orchid which for 50 years has baffled all the attempts of collectors to find its native haunts has been rediscovered. This orchid is the cyrtopodium Fairleanum, which is one of a random collection made in Assam in 1857, sent to London in the same year and bought by a Mr. Fairlie, of Liverpool, in whose possession it bloomed and was daily bailed and described in orchid literature as one of the most beautiful orchids hitherto known. Several other plants of the same orchid came with it, and the species was at once named Fairleanum, after Mr. Fairlie.

From the day of its first discovery, in spite of scores of expeditions and perilous journeys by collectors, not a single plant was found until some member of the Tibet expedition, a few months ago, discovered a whole bunch of the plants. He sent them along to Calcutta, whence two were dispatched to Kew, and others are gradually coming through to England. "Probably another 50 years will elapse ere more Fairleanum are found," said a British specialist, "for no private collecting expedition is likely to venture into such a country. My own belief is that unless another military expedition traverses the same ground there will never again be a chance of getting plants."

The plant flowering at Kew has five growths and two flowers. The second plant is developing five blooms. The flower has a slender, hairy scape about ten inches in height, a prominent and charming dorsal sepal, one and three-quarters inches in length by one and one-quarter inches in breadth, with a white ground beautifully veined with violet purple and with brownish green veins near the center and whitish hairs around the margins. The petals droop and have an upward curve at the tips; they are one and one-half inches in length, with a white ground streaked with purple and yellow. The upper margin of the petals is much undulated and covered with prominent purple hairs. The pouch is rather small, greenish-brown in color, veined with brownish red and covered with short hairs.

THE PILLAGER INDIANS.

Hereditary Home of a Tribe Who Trace Back Perhaps Twenty Centuries.

A long, deep, clear and very cold body of water called Brunside lake, north of Lake Superior near the Canadian boundary, contains, among over 100 other beautiful islands, a certain sunny islet that is of great interest to the archaeologist.

These islands and waters, writes Frank Abial Flower, in Records of the Past, constitute the hereditary home of the Pillager Indians, who are pagans. * * * One of these islands (known as Flower Island) is, as it has been for generations, the seat of the Pillager kings. On it sleep, according to tribal tradition, over 50 successive Pillager rulers, the ancestors of the present chief or king, who, he says, must have reigned an average of 30 or 40 years each, as he himself has been chief for more than half a century.

Think of a dynasty extending over a period of perhaps 20 centuries! The more modern graves are carefully roofed with cedar bark, which, when kept dry and away from the earth, is almost imperishable. The very ancient graves have been essentially obliterated by the ravages of the elements. At the head of each of the traceable graves is carved the peculiar heraldic insignia of the king who sleeps beneath, and above him are placed receptacles for the mah-no-mia (wild rice), fish, berries and other food which are brought annually by the related members of the tribe to appease, as they suppose, the hunger of the departed.

Extravagance for the Dead.

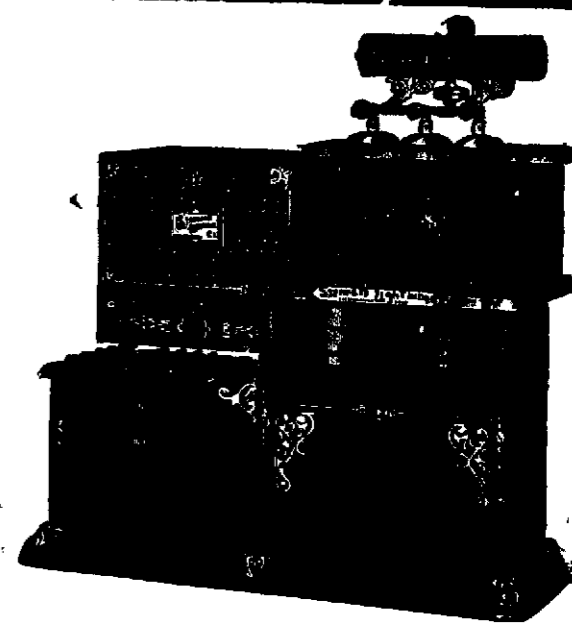

Burial customs were once modest with our people. But complicated and costly living appears to have made simple dying impossible, remarks the New York Mail. We run to weak ostentation in the surroundings and trappings of mortality. It is necessary to obtain this, to purchase that; it is the only good form, nothing else will do. It is the consideration of the living that we think about, not the simple respect due the dead. We forget that the costlier the earthly memorial we erect the shallower may be the record that we cut upon the tablets of our hearts.

Pleasant for Him.

"I was so sorry to hear of your daughter eloping with young Badger—" "You needn't console with me," interrupted Henpeck. "I'm tickled to death." "But he's such an impertinent upstart." "Well, it'll be a positive joy to have some one in the family who can talk up to my wife."—Philadelphia Ledger.

The receipts amounted to \$29.50. This will go toward purchasing uniforms for the boys.

A Furman Club.

It is now confidently expected by Judge Henry M. Furman's fellow townsmen that his candidacy for the United States Senatorship will be formally launched within a few days.

The democrats of the 16th District are unanimously for him, in fact, practically the entire citizenship of this part of the Chickasaw country, regardless of politics, will support this Moses of the people. Judge Furman's fellow townsmen look with especial approval on his candidacy. No more popular candidate with his home people could possibly live. Ada is proud of her Furman, and those of her citizens who have carefully watched the political situation as refers to the senatorial prospect view with particular gratification the unmistakable evidences of his great popularity with the democracy all over the state.

In consideration of the aforesaid conditions, certain Ada citizens have issued a call for the democrats of Ada to meet at the United States commissioner's court room this evening for the purpose of organizing a Furman Democratic Club. Let every Furman democrat—and that means everybody—turn out.

Thanks Awfully.

The News Editor is under lasting obligations to Messrs. Joel Terrell and James Looper for their most generous assistance when we in company with the "heavy weight" Judge Furman, broke our buggy down en-route home from Allen picnic Friday. They were truly the good Samaritans.

Tramp Philosophy.

The correspondent of a New York paper writes of a philosophical tramp whom he met in Massachusetts. The man, who said his name was William Hicks, had clothes that hung in loops and windowed raggedness, but he refused to accept others. In the course of a lengthy interview Mr. Hicks uttered this peice of more or less conclusive philosophy, "I do what I please, and doing what I please, I have my will, and having my will, I am contented, and when one is contented there is no more to be desired, and when there is no more to be desired there is an end to it."

Busby a Possibility.

Wm. Busby of South McAlester has been honored by the Republicans in charge of the big McGuire statehood reception, with the tender of presiding officer during the day's celebration July 2, at Guthrie. Mr. Busby will probably accept.

Politicians see in this a new move by the Frantz-McGuire ring for favor in Indian Territory. Col. Busby is rated as a man whose support is worth something. Having secured the Clayton administration for the band wagon exhibition it appears that the Busby following is worthy of the effort and McGuire is anxious to cement all party dissensions across the line in Indian Territory.

Whether Mr. Busby has political aspirations or not is a secret, but it is believed he likes to play the game and has developed a following quietly that is responsible for the prominent mention of his name in connection with senatorial and congressional nominations appearing from time to time in the Guthrie reports.—S. McAlester Capital.

A Porch Recital.

At the home of Dr. Shands next Monday night under the management of their music teacher, Miss Case, little Misses Jewell Broadfoot and Katherine Reed will give a porch recital. They will be assisted by Miss Mildred Reed. The entertainment will be free and the public is invited to attend. Ample seats will be provided on the lawn for the audience. A delightful program is arranged for the occasion.

Deadly Serpent Bites

are as common in India as are stomach and liver troubles with us. For the latter however there is a sure remedy: Electric Bitters; the great restorative medicine, of which S. A. Brown of Bennettsville, S. C., says: "They restored my wife to perfect health after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cures chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by G. M. Ramsey and Dr. F. Z. Holley, Druggist. Price 50c.

Following the Flag

When our soldiers went to Cuba and the Philippines health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases." Guaranteed at G. M. Ramsey's and Dr. F. Z. Holley, Druggist. Price 50c and \$1.00.

Vigor of Our Students.

A well known English educator says that of all students in the world American students show the greatest energy and enthusiasm. This he believed to be due to the fact that American universities have no courses comparable to the exhausting "trips" at Cambridge. As a result the American preserves his freshness and enthusiasm while the Englishman is intellectually tired.

To Time Chess Players.

A chess player's time-keeper is the novelty of Herr Veenhoff, of Groningen. It consists of two similar small clocks, behind which is a double lever so arranged that B can touch a button to start the clock of A as the latter begins to move, and A can touch another button to stop his own clock and start the other as B's play commences. At the end of the game the clocks show the total time taken for the moves of each player.

Hair and Insanity.

According to Dr. Hobart Langdon, says the Medical Times, only three per cent of the total number of insane people have light hair. His figures are obtained from 68 asylums, 96 per cent of the inmates were brunettes, with either black or brown hair. In one asylum in New England there was not a single inmate that was not a brunette.

Novel Outing.

A Gospel song outing is the latest thing in the way of amusement in Philadelphia. A crowd of people hire a special trolley car for the evening, then start on a tour of the city, singing hymns. It is said that not only the people in the car but those on the sidewalks and in the houses enjoy the singing.

Two Captains on Liners.

The Hamburg-American company is beginning to follow the plan of having two captains for each large steamer. The extra cost is more than counterbalanced by the diminished liability to accidents, which the insurance companies recognize by granting lower rates.

Maligned Insect.

The much maligned white ant of South Africa is credited by a resident of Swaziland with doing more good than harm if care is taken of buildings. It has a wonderful fertilizing effect on the soil, and maize and other crops grow twice as large near ant hills as elsewhere.

Visitors Part with It There.

Where on earth does Paris get all its money? It seems that when big corporations in any part of the world want to borrow they go to the French capital and there never is any trouble about the loan if the security is forthcoming.—Los Angeles Times.

Unique Piece of Work.

A famed scroll work, consisting of buttons sewn on a silk ground, has been sold by auction in North London. It was the work of the wife of a country parson, who thus utilized outions found in the offertory bags in her husband's church.

Humane Dog Catching.

In Germany stray dogs are captured in a fashion that appeals strongly to the humanitarian. Instead of being lassoed with a noose as in this country, they are scooped up in a huge dip net.

Eight-Hour Day for Society.

There should be an eight-hour day for "fashionable" women. We cannot talk scandal continuously for 12, as we do now—the excitement and the strain upon the imagination are terrific.—London Truth.

Prolificacy of the Potato.

If there were but one potato in the world, a careful cultivator might produce 10,000,000,000 from it in ten years, and thus supply the world with seed again.

Sweet Innocence.

Cynical Bachelor—How long do you think the honeymoon lasts?
Sweet Sixteen (with open-eyed wonder)—Why, forever.—Somerville Journal.

Respectability.

To be respectable implies a multitude of little observances, from the strict keeping of Sunday down to the careful tying of a cravat.—Victor Hugo.

Proof of Good Judgment.

Hicks—Your wife is a mighty sensible woman, isn't she?
Wicks—Sure! She married me.—Somerville Journal.

The "Skypiece."

Automobile caps are frequently worn by young men who couldn't buy an automobile if they were selling for five dollars a dozen.

Average Income.

The income of the average American, according to the United States census, is about \$550 a year.

No Room for Smell.

People who live in flats should not boil cabbage.

Way of the World.

Most people would rather be miserably rich than happily poor.

Unpalatable.

On one of his expeditions into central Africa Prof. Drummond found himself among cannibals, who cast longing eyes on his person. It became necessary to make an impression, so Drummond produced a powerful magnifying glass, and after an eloquent exordium called down "fire from heaven" by setting fire to some grass by concentrating the rays of the sun through the glass. After this the natives had no appetite for a white magician and Drummond went on his way rejoicing, laden with native offerings.

Name of Beef Cut.

"Porterhouse steak," says Dr. Ephraim Cutter in the Dietetic and Hygienic Gazette, "is the sirloin and tenderloin combined. Porterhouse steak is a term arising, according to the Standard dictionary, from a New York eating house; but I believe the name was derived from the owner who kept Porter's tavern, which is still extant in North Cambridge, Mass. This tavern was famous in its day for its steaks, and a favorite resort for roadsters."

Dude in Town.

Wonder what George Marson is doing here riding muleback, says the Sequatchie (Tenn.) News. He passed by here Sunday with his two-story collar on and with both hands in his pockets up to his elbows, with his feet lying between the mule's ears. He had his shoes shined, and he didn't want them soiled. His mule was so small that his feet would drag.

Weather Forecasts for Farmers.

The German government is making preparations for the issue shortly of weather forecasts for agriculturists. The forecasts will be sent free or at a nominal charge, and the success of the undertaking will be judged from returns of the subsequent weather supplied by the recipients of the information.

Scandalous Impudence.

At the art exhibition indignat husband points out to wife a study of a picturesque beggar. "This is shameful," my dear. What are we coming to? Here's a man to whom I'd give a coin if I saw him in the street, and yet he can afford to have his portrait done in oils!—La Rive.

His System.

"How do you dispose of your garbage here?" asked the stranger, who was gathering data for purposes of publication.
"We always throw ours in the garbage can," said the man with the chin beard "but I don't know, of course, about the neighbors."

Queer Mania.

A man who was arrested for breaking into a house in Berlin explained that he only wished a pair of shoes belonging to a celebrated Russian pianist who was staying in the house. A collection of women's shoes, all docketed and catalogued, was found in his room.

About the Tongue.

Pungent and acid tastes are perceived by the tip of the tongue; the middle portion tastes sweets and bitters, while the back, or lower portion, concerns itself with fatty substances, such as butter.

Rub-a-Dub Fish.

A fish that drums is found in the waters of Mauritius harbor. When caught and held in the hand, a vibration of the skin behind the gills is to be seen and a delicate rub-a-dub, as of a distant tenor drum, is heard.

Here Is an Optimist.

Moris Young said he was glad they got him to play at the dance. He got to see all the pretty girls, if he didn't get to dance with them.—Sequatchie (Tenn.) News.

One Apology Not Made.

When a woman has company, says Maj Conway, she will apologize for everything about the table except the man she picked out to sit at its head.—Kansas City Journal.

Double Words.

Forty-eight words in the English language have two distinct pronunciations. "Bow," "tear," "invalid" are the best examples.

Becomes Infallible.

If a woman accidentally makes a prediction that comes true, what remarkable things she can feel in her bones ever after!

British Africa.

England is to-day the virtual ruler of 3,300,000 square miles of African territory.

Tigers in Burmah.

Tigers are greatly on the increase in Burmah, owing to recent legal restrictions on the carrying of arms.

Titled Directors Dropped.

London Truth notes that the titled director is being dropped by company promoters.

Something Smell.

A Washington woman uses perfumed gasoline in her motor car.—Chicago Daily News.

Japan's Museums.

Japan has 40 commercial museums and the government labors steadily to improve them.

Neckties on Beels.

Haberdaehers now keep plain ribbon ties on reels, the way tape is sold; but instead of having to take the whole roll a length of tie is snipped off for each customer. The advantage of the reel is that a tie will fit the size collar worn by the buyer. Formerly different lengths had to be kept in stock, but now thin necks or fat ones, small or large, may each be fitted accurately by cutting a piece off the reel.

Practical Response.

New Minister—"I'm glad to see my sermon on charity met with so practical a response. Members of the congregation were dropping money into the box all through the sermon." Sidesman—"Oh, no, sir. You see ours is a penny-in-the-slot meter, and we should have been in darkness if we hadn't attended to it."—London Tatler.

Forbidden by Parcel Post.

In Holland potatoes are not received in the parcel post, Denmark will not receive almanacs, and Egypt will not permit sausages to be posted. Germany refuses anything of American origin, and has some clauses directed against Japan; while air-guns, maps, wax matches, rosaries, relics and jewelry are the miscellaneous lot barred by Spain.

Earth Growing Warmer.

That the earth is growing temporarily warmer is shown by the mountain glaciers. These are made by varying temperature and moisture to increase and diminish in size during periods of years that may be found to be more or less regular cycles, and a period of quite general decrease began about 45 years ago.

Too Romantic.

The following doubtful compliment is a fragment from a love letter: "How I wish, my darling Adelaide, my engagements would permit me to leave town and come and see you! It would be like visiting some old ruin, hallowed by time and fraught with a thousand recollections."

On Love.

"When a feller loves a gal," said the Paint Rock philosopher, chewing a violet, "he thinks that every other man he knows is his rival for the gal's affections. And when he finds out that this ain't actually the case, why, then," chuckled the philosopher, "he's no longer in love."

She Understood.

"Yes," said the man who was beginning to sour on the national sport, "it's interesting sometimes, but baseball nowadays is becoming very dirty."
"Oh," exclaimed his fair companion, "I understand now why all those players are wearing gloves."—Philadelphia Press.

Washington Foretold It.

A bill recently introduced in congress provides for the drainage of the great Dismal swamp, of Virginia, thus fulfilling the prophecy made 100 years ago by Gen Washington that some day the swamp would be converted into farm lands.—Farming.

Parliamentary Measles.

A British health officer received the following note from one of the residents of his district: "Dear Sir: I beg to tell you that my child, aged eight months, is suffering of measles as required by act of parliament."

American Books in Canada.

American literature is found in every Canadian home, writes Consul Seyfert from Stratford. The village and city libraries are filled with American books and American periodicals predominate.

Perfectly Willing.

E. Bangs Izzair—May I—aw—have the next value?

Letta Sloan—I haven't the slightest objection. That's the one I don't—aw—dawnce.—Chicago Tribune.

Honeymoon Over.

When a man will eat spring onions at a free lunch before going home in the evening it is a sure sign that the honeymoon is a thing of the past.—Detroit Free Press.

Mammoth Mirror.

A record-breaking plate-glass mirror, in the dining-room of the Savoy hotel, London, is 158 inches square and half an inch thick.

White Gloved Executioner.

The public executioner of Austria wears a pair of new white gloves every time he carries out a capital sentence.

He and She.

When a man decides to go anywhere he begins packing his suit case. When a woman decides to go she begins making a shirt waist.

The Beginning.

Knicker—Primitive men plowed the earth with a sharpened stick.
Bocker—You don't mean to say golf dated that far back?—N. Y. Sun.

Wrong Thing.

At a wedding do not say, "May the best man win."

Has Fewest Doctors.

Russia has the fewest doctors of any civilized country.

Norwegian Moss.

Prof. Hansteen, of the agricultural school at Aas, Norway, finds that a greenish-white moss common in that country can be converted into delicious and nutritious food by being subjected to a chemical process, compressed and cooked. He says that nine ounces of moss, costing two cents, will make a good dinner for six persons—which is evidence that his zeal outruns his discretion, inasmuch as an ounce and a half of food is not enough to make a substantial meal for a normal man or woman.

Locusts in Algeria.

Locusts are devastating southern Algeria. The swarms are so great as almost to defy imagination. It is not easy to conceive of an almost solid phalanx of insects 125 miles long by six miles wide. Unfortunately, the devastation which such myriads of voracious insects must create in vegetation is not so difficult to appreciate. Wherever the host has passed nothing green remains. Even the houses are becoming uninhabitable. The Oran province seems doomed for this year.

Oyster Culture.

The Maryland shellfish commission is studying oyster culture in the proper way by learning in Connecticut just how the thing is done. Oyster culture has long been practiced in France and Japan, to say nothing of Virginia. Many years ago Dr. Brooks' book on the subject laid down the principles that underlie the successful prosecution of the industry.

Oldest Negro Lawyer.

Thomas P. Johnson, 94 years old, the oldest negro lawyer in Arkansas, died recently after 36 years' active practice of law. He was licensed as an attorney by Associate Justice Bowen, of the Arkansas supreme court, in July, 1870. He was a slave, and belonged to a planter in Desha county, in Arkansas.

Good Army.

The governor of Herat has presented the following report to the ameer of Afghanistan: "The behavior of the army is satisfactory, and there have been no cases of serious crime. The Herat army now says its prayers five times a day, and the men are becoming pukka (very good) Mussulmans."

No Admiration for Actorines.

Dr. Light is in Wichita to-day attending to professional business and expects to take in the Bernhardt performance to-night just for instance, although our Dutch blood doesn't care two whoops in a rain barrel for these crazy French actorines.—Kingman (Kan.) Journal.

Metal Getting Scarce.

Aluminum has suddenly come into use for so many purposes where copper and brass were formerly employed that the supply is everywhere far short of the demand. The automobile manufacture is largely responsible for the shortage.

Great Sewer System.

If the sewers of New York city were placed end to end in a straight line they would reach from there to Pike's Peak, 1,710 miles, and the paved streets of the city would make a road along one side of them all the way.

No Happy Medium.

"Yes, I'd be willing to get married if I could only get a wife who was economical and—"
"My dear boy, no woman is ever economical. She's either extravagant or stingy."—Philadelphia Press.

Greatest Street Car City.

New York beats the cities of the world in the length of its street railway tracks. If in one single track its surface, elevated and subway system would extend in a straight line for 1,018 miles.

See Few American Vessels.

Only two American vessels have entered the harbor of Bordeaux in ten years, and those were private yachts which sought refuge during the Spanish-American war.

Country Mail Delivery.

Rural free delivery was established under President McKinley in 1897. During the fiscal year ended 1903 there were 15,119 routes in operation, with 11,700 petitioners pending.

Too Intricate.

Perhaps men are as deceitful as women in some things, but they never attempt to transform a yawn into a smile.

Mexican President a Nimrod.

President Diaz returned the other day from a hunting trip with three mountain cats and 17 deer. Mexico's president is only 76.

Horses Come High.

A good carriage horse in Australia costs \$200 or four times as much as the cost 15 years ago.

Poor Management.

The Athens correspondent of the London Mail says the management of the Olympian games was "chaos."

Busy Bodies.

Too many people look for their duty next door.

Bread Vendors in Asia.

Bread is sold from boxes strapped to donkeys in Asia Minor.

Hard to Cure.

"I'm glad to hear that Flatman has inherited a fortune and bought a good farm with it. How does he like living in the country?"
"Splendidly. But when the first day of last May came he forgot himself and went around absent-mindedly looking for a new farm, under the impression that he had got to move."—Chicago Tribune.

Explosive Dust in Mines.

Recent explosions in coal mines have shown that the fine dust which settles on the timber and sides of roadways is an element of serious danger. The risk is kept at the minimum when and where the dust is removed as much as possible and the currents of air forced into the mine through ventilating shafts are made as dry as practicable.

Submarine Monotony.

As a rule with few exceptions, the surface of the earth under the oceans is devoid of striking and abrupt contrasts. It would be monotonous if it were brought to view. The action of the water and the depositing of organic and other matter settling down through the sea have smoothed down the greater part of the subaqueous earth and left it far from picturesque.

Never Lived There.

"Where did you learn the Lord's Prayer?" asked an Atchison Sunday school teacher of a little girl.
"I used to live in Topeka," said the little girl, "and I learned it there."
"Now let me hear you say it," said the teacher to the next little girl.
"I don't know it," said the next little girl, "I never lived in Topeka."—Kansas City Journal.

Labor Unions in Holland.

Every department of labor is united in Holland and all other departments. So the other night the spectacle was seen at the Amsterdam opera house of a crowd of bootmakers and cobblers wrecking the performance of an opera for which nonunion choristers had been enlisted.

Use for Boys.

The ever burning questions: "What shall we do with our boys?" seems to be satisfactorily answered in the following advertisement, which appears in the window of a Farmington road butcher's shop: "Wanted, a respectable boy for beef sausages."—London Tribune.

Feminine Financier.

Disappointed at not winning a prize at school, a girl of Grimsby, England, went to a shop and obtained three pairs of boots "on approval." She pawned the boots, and with the proceeds bought some books, which she triumphantly exhibited at home as school prizes.

Expansion of Opals.

The reason why opals are often lost from their settings is that they expand with heat more than other precious stones, and, consequently, force open the gold which holds them in place, with the result that they ultimately fall out.

She Must Know How.

Under a new law, says Health, of New York, in Norway every would-be bride must exhibit a certificate that she knows how to cook. In Norway a dyspeptic is regarded as a natural curiosity.

"Bad Man" Gone.

In the new Nevada the "bad man" is a missing figure, and the contrast between these present-day camps of Tonopah, Goldfield and Bullfrog, and their predecessors of the Comstock, is wide and impressive.—Outing.

German Women Domestic.

Germany is one of the countries where cycling is taken up least by women. German women seldom go in for much outdoor exercise; they are distinctly domestic in their habits.

Material at Hand.

The gawkier of Baroda intends to have a baseball nine or two when he gets home. There are some players he can have cheap, without making any references to allusions.

Everlasting Blotter.

The Austrians use a stone blotting-pad that never wears out. A little scraping with a knife cleans it effectually.—Philadelphia Bulletin.

Good Thing.

What Lunar Athletes Could Do.

The "man in the moon" must surely regard with amused contempt our much-vaunted athletic records. A good terrestrial athlete could cover about 120 feet on the moon in a running, broad jump, while leaping over a barn would be a very commonplace feat. He would find no difficulty in carrying six times as much and running six times as fast as he could on earth, all because the moon attracts bodies with only one-sixth of the force of the earth.—Springfield (Mass.) REPUBLICAN SCHEME TO CARRY THE TERRITORY

Muskogee, I. T., June 30.—The republican organization in Indian Territory is not going to lose any time about getting before the commission in making constitutional districts the figures on where the big republican population is. Neither is the organization going to be in a hurry about turning in to the same commission the growth in population that it has found in the Choctaw and Chickasaw nations by the political census that it is taking.

The plan of the republican machine is already apparent. It is to show a heavy increase in population in the republican districts, and a light one in the democratic districts since the last Federal census was taken in 1900. The idea is advanced by a republican newspaper or two, and it was corroborated by A. W. Archer in the interview yesterday. Mr. Archer is in charge of the republican headquarters for Indian Territory at Muskogee.

Mr. Archer said, "We are taking a complete political census of the entire Indian Territory. Within sixty days we will have all of the northern part of the territory, including the Creek, Seminole, Cherokee and Quaw-

paw nations covered. It will take longer than that to complete the work in the Choctaw and Chickasaw nations. We expect to have this information at hand for use by the commission that is to make the constitutional districts, except that of the Choctaw and Chickasaw nations. We are not pushing the work as fast in some parts of the territory as in others. The immigration has not been so heavy in these nations as the others since 1900, and the census of that year will be a better guide for those nations than for the others."

This same statement has been advanced editorially in republican newspapers, and the two big southern nations are already raising a howl. They claim that the increase in population there has been as great as anywhere else and that they are entitled to just as many delegates to the constitutional convention as the other nations where there is a big republican vote.

Thank You.

In behalf of the Ada Band I wish to thank, most sincerely, those who so ably assisted in the concert last evening.

COMMITTEE ON ELECTION DISTRICTS GET TOGETHER

Muskogee, I. T., June 30.—Judges W. H. H. Clayton and Joseph A. Gill and Tams Bixby, the committee appointed by the president to apportion the election districts, consisting of fifty-five in Indian Territory portion of the new State, meets here today to outline their plan of work. It is thought that the work will be carried on at once now, as both courts presided over by the Judges have adjourned for the summer.

It is known that the sittings of the committee will be in this city, for the reason that the Dawes Commission has complete maps and other valuable information not otherwise obtainable without an enormous expense.

President Signs Bills.

Washington, June 30.—The President last night at 11:15 signed the railroad rate bill. He also signed the naturalization bill and the bill for the construction of a lock canal across the Isthmus of Panama.

CONGRESS ADJOURNS AFTER MEMORABLE SESSION

Washington, June 30.—Yesterday was the last day of Congress, for today it will adjourn at 3 o'clock. There was even some hope that by staying in session until after midnight it could avoid another session, but eager as the members are to escape the stifling heat of Washington, several things prevented this consummation, one of them being that the engrossing clerks will not be able to finish their tasks until after noon of today.

The conference difficulties which have been preventing adjournment were rapidly disposed of yesterday. The report on the rate bill was brought in. It occasioned some rather desultory debate, and was then adopted in a manner which made a ridiculous climax for the great struggle which has marked the progress of this measure. At the moment it became an act of Congress, so far as the legislative body can make it, there were not twenty people in the galleries, and indeed, there were hardly so many senators on the floor, and what was a singular circumstance, none of those senators who engaged so actively in the debate of two months ago were present when the final question was put. The vice president sat mopping his brow with one hand and fanning himself with the other. Mr. Bacon had just sat

down after making a few criticisms of the report. Mr. Fairbanks waited a moment. No one else seemed disposed to speak. The senate had exhausted itself.

"All in favor of agreeing to the conference report will say aye." Silence. "All opposed will say no." Silence. "The ayes have it and the conference report is agreed to," declared Mr. Fairbanks, whereupon he resumed the fanning and mopping of his brow. In this perfunctory way did the rate bill, "the most important legislation since the Civil War," become an act of Congress.

Afterwards the conference report on the pure food bill was adopted, and then the senate waited impatiently for the report on the agricultural appropriation bill, which provides for the inspection of meats. But on this it had yet to endure some further debate, after which the conferees retired to fix up the report in accordance with the demands of the house. The report is in the terms of the agreement made privately two days ago. The government pays cost and there are to be no tell-tale dates on the cans. The general deficiency and the public buildings bill are, at this moment, still in conference. When these are disposed of congress will be ready to adjourn.

FRANTZ SAYS HE WILL NOT RETIRE FROM POLITICS

Guthrie, O. T., June 29.—Governor Frantz states that there is no truth in reports that he intends to resign his position as governor of Oklahoma and get out of politics. He also says that he has no intention of becoming a major in the regular army as has been reported.

"I intend to stay right here in Oklahoma," said the governor. "I have no intention of resigning as governor of Oklahoma, and am not tired of politics. I have had all I want of the army for the present, and am satisfied to remain in civil life."

A democratic paper contains an article stating that Governor Frantz had declared to close friends that he intends to leave politics as soon as he can without injuring his party, and that he has no desire to hold office in the new state.

Friends of Governor Frantz state that he never was in better position to gain advantage by remaining in politics. As a member of the board which will form the districts for the constitutional convention, Governor Frantz will be able to perform a great service for his party and the new state. He is in harmony with the present republican territorial

organization, and can reasonably expect consideration from that source if he should be a candidate for any position of trust in the new state. He has been a resident of Oklahoma for a number of years and is familiar with conditions here.

It has been stated that Governor Frantz will be a candidate for governor of the new state, although he has not committed himself on that subject. Certain factional interests are making a strong fight against the Governor and some of his former political friends have turned against him and are lending assistance to the inspectors who were sent to the Territory by the interior department to investigate Frantz's record. His enemies are mostly from the ranks of those who have disapproved appointments he has made and not within the camp of the republican party of Oklahoma as represented in the county and territorial organizations.

It is believed that Frantz's friends will ask him to enter the gubernatorial race in the new state and that a boom will be started in the interests of his candidacy within the next few months.

LEADING INDIANS WILL ESPOUSE DEMOCRACY

Kinta, I. T., June 30.—To show the drift of Indian sentiment, politically, in the Choctaw nation, it is common talk in this vicinity that when the campaign opens in full in greater Oklahoma, Green B. McCurtain, governor of the nation, will not only espouse the democratic party but he will enter actively into the arena.

Hitherto it has been Governor McCurtain's policy to keep aloof from politics as being more becoming to his position as long as he was governor and had to deal on behalf of his people with the department of the interior. Those who know the governor best declare that, like General Pleasant Porter of Muskogee, the governor of the Creek nation, he has always been a democrat at heart. In South McAlester it is also understood that the governor's son, D. C. McCurtain, the prominent lawyer, will cast his fortune with the democratic party.

If the trend of the Indians may be told by their leaders' positions only the full-bloods will remain with the republican party. In the Cherokee nation, however, William C. Rogers is not only a democrat, but a democrat of the old school who has always taken an active interest in his party and who will take an active part in the

coming campaign. Governor Brown of the Seminole nation is a democrat as is Governor Johnson of the Chickasaws.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

WITNESSES SUBPOENAED.

Preparing for Trial of Celebrated Katy Land Suit.

Muskogee, I. T., June 23.—The case of the Missouri, Kansas and Texas Railroad Company against the United States, in which the railroad seeks to recover every alternate section of land for twenty miles on each side of the right of way from the Kansas line to Texas, amounting to approximately 4,000,000 acres of choice agricultural lands in Indian Territory, will be heard in the Supreme Court of the United States, at Washington on the first Monday in October. The following named persons being Indians by blood in Indian Territory have been subpoenaed here today: P. Porter, principal chief of the Creek Nation; Wm. Fisher, Joseph Fisher, C. L. Bonham, Michael Fitzpatrick, Jennie C. Fitzpatrick, G. P. Roth, Samuel Johnson, Elmer Johnson, J. F. Ingram, David Whitlow, G. W. Grayson, Connie Murphy, N. B. Moore, D. A. Lee, Goggan Sarts, Jas. Childers, W. B. Rogers, Alex. Posey, W. N. Moore, Temye Cornells, John Jefferson, H. C. Reed, Sam Grasso, Geo. Malvern, A. J. Berryhill, Wattie Yahola, George Marshall, Robert Bruner, Sarah A. Ashbell and Jake Smith.

In addition to the above the following men being in the government service have been subpoenaed: E. A. Hitchcock, Francis E. Leupp, Tams Bixby, J. George Wright and Dana H. Kelsey. This is the celebrated case which is now campaign material for the Kansas election in November, owing to the fact that Gov. Hoch permitted the use of the name of the state as a party to the suit at the request of the railroad.

To Boost Candidacy of Friends and Also His Own.

Washington, June 30.—It was said today that a number of well-to-do Republicans of the House contributed to a fund which is to be used to defray the cost of an all-star political tour which Speaker Cannon is to make during the months of September and October.

Primarily the purpose of this tour is to help the Republican members to get back to Congress. But it is also understood that another of its purposes is the promotion of the Speaker's desire to be president.

Since Mr. Shaw's misfortune in Iowa, as the result of local conditions, Mr. Cannon thinks that he as a "standpater" has a larger opportunity, and while heretofore he has been courting his party in very coquettish fashion his advances hereafter, it is said, will be more bold. How bold will depend on what encouragements he gets during his tour next September and October, while the decision itself will depend on the whispering of the ballot box in November.

RARE ORCHID AGAIN FOUND

Plant Long-Sought Has Been Rediscovered on Recent Tibet Expedition.

An orchid which for 50 years has baffled all the attempts of collectors to find its native haunts has been rediscovered. This orchid is the *cyrtopodium Fairleanum*, which is one of a random collection made in Assam in 1857, sent to London in the same year and bought by a Mr. Fairlie, of Liverpool, in whose possession it bloomed and was daily hailed and described in orchid literature as one of the most beautiful orchids hitherto known. Several other plants of the same orchid came with it, and the species was at once named *Fairleanum*, after Mr. Fairlie.

From the day of its first discovery, in spite of scores of expeditions and perilous journeys by collectors, not a single plant was found until some member of the Tibet expedition, a few months ago, discovered a whole bunch of the plants. He sent them along to Calcutta, whence two were dispatched to Kew, and others are gradually coming through to England.

"Probably another 50 years will elapse ere more *Fairleanum* are found," said a British specialist, "for no private collecting expedition is likely to venture into such a country. My own belief is that unless another military expedition traverses the same ground there will never again be a chance of getting plants."

The plant flowering at Kew has five growths and two flowers. The second plant is developing five blooms. The flower has a slender, hairy scape about ten inches in height, a prominent and charming dorsal sepal, one and three-quarters inches in length by one and one-quarter inches in breadth, with a white ground beautifully veined with violet purple and with brownish green veins near the center and whitish hairs around the margins. The petals droop and have an upward curve at the tips; they are one and one-half inches in length, with a white ground streaked with purple and yellow. The upper margin of the petals is much undulated and covered with prominent purple hairs. The pouch is rather small, greenish-brown in color, veined with brownish red and covered with short hairs.

THE PILLAGER INDIANS.

Hereditary Home of a Tribe Who Trace Back Perhaps Twenty Centuries.

A long, deep, clear and very cold body of water called Brunsdike lake, north of Lake Superior near the Canadian boundary, contains, among over 100 other beautiful islands, a certain sunny islet that is of great interest to the archaeologist.

These islands and waters, writes Frank Abial Flower, in Records of the Past, constitute the hereditary home of the Pillager Indians, who are pagans. * * * One of these islands (known as Flower Island) is, as it has been for generations, the seat of the Pillager kings. On it sleep, according to tribal tradition, over 50 successive Pillager rulers, the ancestors of the present chief or king, who, he says, must have reigned an average of 30 or 40 years each, as he himself has been chief for more than half a century.

Think of a dynasty extending over a period of perhaps 20 centuries! The more modern graves are carefully roofed with cedar bark, which, when kept dry and away from the earth, is almost imperishable. The very ancient graves have been essentially obliterated by the ravages of the elements. At the head of each of the traceable graves is carved the peculiar heraldic insignia of the king who sleeps beneath, and above him are placed receptacles for the mah-no-mia (wild rice), fish, berries and other food which are brought annually by the related members of the tribe to appease, as they suppose, the hunger of the departed.

Extravagance for the Dead.

Burial customs were once modest with our people. But complicated and costly living appears to have made simple dying impossible, remarks the New York Mail. We run to weak ostentation in the surroundings and trappings of mortality. It is necessary to obtain this, to purchase that; it is the only good form, nothing else will do. It is the consideration of the living that we think about, not the simple respect due the dead. We forget that the costlier the earthly memorial we erect the shallower may be the record that we cut upon the tablets of our hearts.

Pleasant for Him.

"I was so sorry to hear of your daughter eloping with young Badger—"

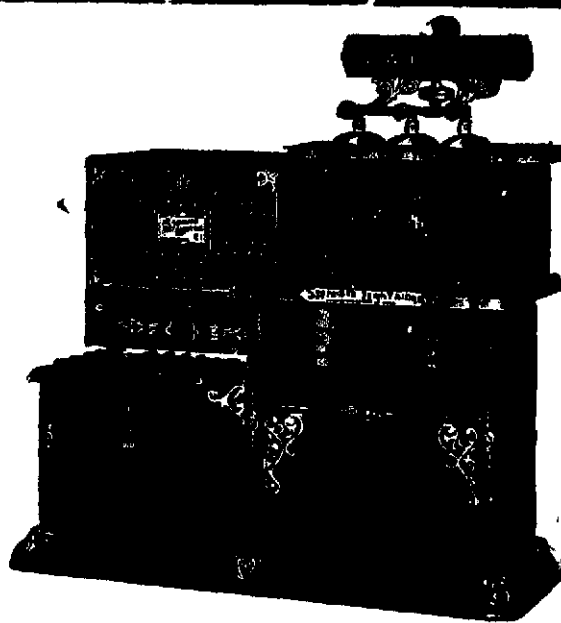

"You needn't condole with me," interrupted Henpeck. "I'm tickled to death."

"But he's such an impertinent upstart."

"Well, it'll be a positive joy to have some one in the family who can talk up to my wife."—Philadelphia Ledger.

Fourth of July jollifications will be had in Konowa, Roff, Coalgate, Holdenville and Shawnee. They have all invited Ada to attend. Where are you going?

Mr. and Mrs. S. M. Torbett entertained the Forty-two club at their elegant home on South Broadway Friday evening. A very enjoyable time is reported.

John Danielson, in the stone business at South McAlester, is in the city today. He is making a tour of this part of the Territory prospecting for good workable stone.

Have you a friend or an acquaintance in the east, north or south that you would like to acquaint with Ada and the new state? If so, send them the Ada Weekly News. 3 months 25c, 6 months 50c, one year \$1.

L. M. Robbins and H. D. Barnett and wives, of Center, are in town trading today. The gentlemen say that crops are in good condition. Corn will not be hurt if it rains within a week.

Do You Need Shoes?

If you want a pair of Shoes that combine style, elegance and individuality with the best leather and excellent workmanship, why not try ours? You will be satisfied with your selection. The latest correct styles for men, women and children

CHAPMAN The Shoe Man.

Mrs. S. E. Torbett, who has been the guest of her son, S. M. Torbett, for the past two months, left today for her home at Wills Point, Texas.

We are pleased to place on our subscription list today the name of H. T. Douglas of Shawnee, one of the new state's leading financiers. He is president of the Shawnee National Bank, is vice-president of the First National Bank, of Ada, and is otherwise extensively interested in Ada's welfare.

Quite a good crowd attended the Band concert at the opera house last evening. The program consisted of several band numbers, with several well chosen violin, piano and vocal selections. Misses Warren, Case and Lucas furnished instrumental music. Misses Snead and Eddleman favored the occasion with vocal solos, and Robert Cummings rendered several violin selections. The receipts amounted to \$29.50. This will go toward purchasing uniforms for the boys.

A Furman Club.

It is now confidently expected by Judge Henry M. Furman's fellow townsmen that his candidacy for the United States Senatorship will be formally launched within a few days.

The democrats of the 16th District are unanimously for him, in fact, practically the entire citizenship of this part of the Chickasaw country, regardless of politics, will support this Moses of the people. Judge Furman's fellow townsmen look with especial approval on his candidacy. No more popular candidate with his home people could possibly live. Ada is proud of her Furman, and those of her citizens who have carefully watched the political situation as refers to the senatorial prospect view with particular gratification the unmistakable evidences of his great popularity with the democracy all over the state.

In consideration of the aforesaid conditions, certain Ada citizens have issued a call for the democrats of Ada to meet at the United States commissioner's court room this evening for the purpose of organizing a Furman Democratic Club. Let every Furman democrat—and that means everybody—turn out.

Thanks Awfully.

The News Editor is under lasting obligations to Messrs. Joel Terrell and James Looper for their most generous assistance when we in company with the "heavy weight" Judge Furman, broke our buggy down en-route home from Allen picnic Friday. They were truly the good Samaritans.

Tramp Philosophy.

The correspondent of a New York paper writes of a philosophical tramp whom he met in Massachusetts. The man, who said his name was William Hicks, had clothes that hung in loops and windowed raggedness, but he refused to accept others. In the course of a lengthy interview Mr. Hicks uttered this peice of more or less conclusive philosophy, "I do what I please, and doing what I please, I have my will, and having my will, I am contented, and when one is contented there is no more to be desired, and when there is no more to be desired there is an end to it."

Busby a Possibility.

Wm. Busby of South McAlester has been honored by the Republicans in charge of the big McGuire statehood reception, with the tender of presiding officer during the day's celebration July 2, at Guthrie. Mr. Busby will probably accept.

Politicians see in this a new move by the Frantz-McGuire ring for favor in Indian Territory. Col. Busby is rated as a man whose support is worth something. Having secured the Clayton administration for the band wagon exhibition it appears that the Busby following is worthy of the effort and McGuire is anxious to cement all party disensions across the line in Indian Territory.

Whether Mr. Busby has political aspirations or not is a secret, but it is believed he likes to play the game and has developed a following quietly that is responsible for the prominent mention of his name in connection with senatorial and congressional nominations appearing from time to time in the Guthrie reports.—S. McAlester Capital.

A Porch Recital.

At the home of Dr. Shands next Monday night under the management of their music teacher, Miss Case, little Misses Jewell Broadfoot and Katherine Reed will give a porch recital. They will be assisted by Miss Mildred Reed. The entertainment will be free and the public is invited to attend. Ample seats will be provided on the lawn for the audience. A delightful program is arranged for the occasion.

Deadly Serpent Bites

are as common in India as are stomach and liver troubles with us. For the latter however there is a sure remedy: Electric Bitters; the great restorative medicine, of which S. A. Brown of Bennettsville, S. C., says: "They restored my wife to perfect health after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by G. M. Ramsey and Dr. F. Z. Holley, Druggist. Price 50c.

Following the Flag

When our soldiers went to Cuba and the Philippines health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases." Guaranteed at G. M. Ramsey's and Dr. F. Z. Holley, Druggist. Price 50c and \$1.00.

Vigor of Our Students.
A well known English educator says that of all students in the world American students show the greatest energy and enthusiasm. This he believed to be due to the fact that American universities have no courses comparable to the exhausting "trips" at Cambridge. As a result the American preserves his freshness and enthusiasm while the Englishman is intellectually tired.

To Time Chess Players.
A chess player's time-keeper is the novelty of Herr Veenhoff, of Groningen. It consists of two similar small clocks, behind which is a double lever so arranged that B can touch a button to start the clock of A as the latter begins to move, and A can touch another button to stop his own clock and start the other as B's play commences. At the end of the game the clocks show the total time taken for the moves of each player.

Hair and Insanity.
According to Dr. Hobart Langdon, says the Medical Times, only three per cent. of the total number of insane people have light hair. His figures are obtained from 68 asylums; 96 per cent. of the inmates were brunettes, with either black or brown hair. In one asylum in New England there was not a single inmate that was not a brunette.

Novel Outing.
A Gospel song outing is the latest thing in the way of amusement in Philadelphia. A crowd of people hire a special trolley car for the evening, then start on a tour of the city, singing hymns. It is said that not only the people in the car but those on the sidewalks and in the houses enjoy the singing.

Two Captains on Liners.
The Hamburg-American company is beginning to follow the plan of having two captains for each large steamer. The extra cost is more than counterbalanced by the diminished liability to accidents, which the insurance companies recognize by granting lower rates.

Maligned Insect.
The much maligned white ant of South Africa is credited by a resident of Swaziland with doing more good than harm if care is taken of buildings. It has a wonderful fertilizing effect on the soil, and maize and other crops grow twice as large near ant hills as elsewhere.

Visitors Part with It There.
Where on earth does Paris get all its money? It seems that when big corporations in any part of the world want to borrow they go to the French capital, and there never is any trouble about the loan if the security is forthcoming.—Los Angeles Times.

Unique Piece of Work.
A tamed scroll work, consisting of buttons sewn on a silk ground, has been sold by auction in North London. It was the work of the wife of a country parson, who thus utilized outions found in the offertory bags in her husband's church.

Humane Dog Catching.
In Germany stray dogs are captured in a fashion that appeals strongly to the humanitarian. Instead of being jassued with a noose as in this country, they are scooped up in a huge dip net.

Eight-Hour Day for Society.
There should be an eight-hour day for "fashionable" women. We cannot talk scandal continuously for 12, as we do now—the excitement and the strain upon the imagination are terrific.—London Truth.

Prolificacy of the Potato.
If there were but one potato in the world, a careful cultivator might produce 10,000,000,000 from it in ten years, and thus supply the world with seed again.

Sweet Innocence.
Cynical Bachelor—How long do you think the honeymoon lasts?
Sweet Sixteen (with open-eyed wonder)—Why, forever.—Somerville Journal.

Respectability.
To be respectable implies a multitude of little observances, from the strict keeping of Sunday down to the careful tying of a cravat.—Victor Hugo.

Proof of Good Judgment.
Hicks—Your wife is a mighty sensible woman, isn't she?
Wicks—Sure! She married me.—Somerville Journal.

The "Skypiece."
Automobile caps are frequently worn by young men who couldn't buy an automobile if they were selling for five dollars a dozen.

Average Income.
The income of the average American, according to the United States census, is about \$650 a year.

No Room for Snail.
People who live in flats should not boil cabbage.

Way of the World.
Most people would rather be miserably rich than happily poor.

Unpalatable.
On one of his expeditions into central Africa Prof. Drummond found himself among cannibals, who cast longing eyes on his person. It became necessary to make an impression, so Drummond produced a powerful magnifying glass, and after an eloquent exordium called down "fire from heaven" by setting fire to some grass by concentrating the rays of the sun through the glass. After this the natives had no appetite for a white magician and Drummond went on his way rejoicing, laden with native offerings.

Name of Beef Cut.
"Porterhouse steak," says Dr. Ephraim Cutter in the Dietetic and Hygienic Gazette, "is the striolo and tenderloin combined. Porterhouse steak is a term arising, according to the Standard dictionary, from a New York eating house; but I believe the name was derived from the owner who kept Porter's tavern, which is still extant in North Cambridge, Mass. This tavern was famous in its day for its steaks, and a favorite resort for roadsters."

Dude in Town.
Wonder what George Marson is doing here riding muleback, says the Sequatchie (Tenn.) News. He passed by here Sunday with his two-story collar on and with both hands in his pockets up to his elbows, with his feet lying between the mule's ears. He had his shoes shined, and he didn't want them soiled. His mule was so small that his feet would drag.

Weather Forecasts for Farmers.
The German government is making preparations for the issue shortly of weather forecasts for agriculturists. The forecasts will be sent free or at a nominal charge, and the success of the undertaking will be judged from returns of the subsequent weather supplied by the recipients of the information.

Scandalous Impudence.
At the art exhibition indignat husband points out to wife a study of a picturesque beggar. "This is shameful," my dear. What are we coming to? Here's a man to whom I'd give a coin if I saw him in the street, and yet he can afford to have his portrait done in oils!—La Rive.

His System.
"How do you dispose of your garbage here?" asked the stranger, who was gathering data for purposes of publication.
"We always throw ours in the garbage can, said the man with the chin beard "but I don't know, of course, about the neighbors."

Queer Mania.
A man who was arrested for breaking into a house in Berlin explained that he only wished a pair of shoes belonging to a celebrated Russian pianist who was staying in the house. A collection of women's shoes, all docketed and catalogued, was found in his room.

About the Tongue.
Pungent and acid tastes are perceived by the tip of the tongue; the middle portion tastes sweets and bitters, while the back, or lower portion, concerns itself with fatty substances, such as butter.

Rub-a-Dub Fish.
A fish that drums is found in the waters of Mauritius harbor. When caught and held in the hand, a vibration of the skin behind the gills is to be seen and a delicate rub-a-dub, as of a distant tenor drum, is heard.

Here Is an Optimist.
Morris Young said he was glad they got him to play at the dance. He got to see all the pretty girls, if he didn't get to dance with them—Sequachee (Tenn.) News.

One Apology Not Made.
When a woman has company, says Maj. Conway, she will apologize for everything about the table except the man she picked out to sit at her head.—Kansas City Journal.

Double Words.
Forty-eight words in the English language have two distinct pronunciations. "Bow," "tear," "invalid" are the best examples.

Becomes Infallible.
If a woman accidentally makes a prediction that comes true, what remarkable things she can feel in her bones ever after!

British Africa.
England is to-day the virtual ruler of 3,300,000 square miles of African territory.

Tigers in Burmah.
Tigers are greatly on the increase in Burmah, owing to recent legal restrictions on the carrying of arms.

Titled Directors Dropped.
London Truth notes that the titled director is being dropped by company promoters.

Something Smell.
A Washington woman uses perfumed gasoline in her motor car.—Chicago Daily News.

Japan's Museums.
Japan has 40 commercial museums and the government labors steadily to improve them.

Neckties on Reels.
Haberdashers now keep plain ribbon ties on reels, the way tape is sold; but instead of having to take the whole roll a length of tie is snipped off for each customer. The advantage of the reel is that a tie will fit the size collar worn by the buyer. Formerly different lengths had to be kept in stock, but now thin necks or fat ones, small or large, may each be fitted accurately by cutting a piece off the reel.

Practical Response.
New Minister—"I'm glad to see my sermon on charity met with so practical a response. Members of the congregation were dropping money into the box all through the sermon."
Sidesman—"Oh, no, sir. You see ours is a penny-in-the-slot meter, and we should have been in darkness if we hadn't attended to it."—London Tatler.

Forbidden by Parcel Post.
In Holland potatoes are not received in the parcel post, Denmark will not receive almanacs, and Egypt will not permit sausages to be posted. Germany refuses anything of American origin, and has some clauses directed against Japan; while air-guns, maps, wax matches, rosaries, relics and jewelry are the miscellaneous lot barred by Spain.

Earth Growing Warmer.
That the earth is growing temporarily warmer is shown by the mountain glaciers. These are made by varying temperature and moisture to increase and diminish in size during periods of years that may be found to be more or less regular cycles, and a period of quite general decrease began about 45 years ago.

Too Romantic.
The following doubtful compliment is a fragment from a love letter: "How I wish, my darling Adelaide, my engagements would permit me to leave town and come and see you! It would be like visiting some old ruin, hallowed by time and fraught with a thousand recollections."

On Love.
"When a feller loves a gal," said the Paint Rock philosopher, chewing a violet, "he thinks that every other man he knows is his rival for the gal's affections. And when he finds out that this ain't actually the case, why, then," chuckled the philosopher, "he's no longer in love."

She Understood.
"Yes," said the man who was beginning to sour on the national sport, "it's interesting sometimes, but baseball nowadays is becoming very dirty."
"Oh," exclaimed his fair companion, "I understand now why all those players are wearing gloves."—Philadelphia Press.

Washington Foretold It.
A bill recently introduced in congress provides for the drainage of the great Dismal swamp, of Virginia, thus fulfilling the prophecy made 100 years ago by Gen. Washington that some day the swamp would be converted into farm lands.—Farming.

Parliamentary Measles.
A British health officer received the following note from one of the residents of his district: "Dear Sir: I beg to tell you that my child, aged eight months, is suffering of measles as required by act of parliament."

American Books in Canada.
American literature is found in every Canadian home, writes Consul Seyfert from Stratford. The village and city libraries are filled with American books and American periodicals predominate.

Perfectly Willing.
E. Bangs Izair—May I—aw—have the next vase?
Letta Sloan—I haven't the slightest objection. That's the one I don't—aw—dawnce.—Chicago Tribune.

Honeymoon Over.
When a man will eat spring onions at a free lunch before going home in the evening it is a sure sign that the honeymoon is a thing of the past.—Detroit Free Press.

Mammoth Mirror.
A record-breaking plate-glass mirror, in the dining-room of the Savoy hotel, London, is 158 inches square and half an inch thick.

White Gloved Executioner.
The public executioner of Austria wears a pair of new white gloves every time he carries out a capital sentence.

He and She.
When a man decides to go anywhere he begins packing his suit case. When a woman decides to go she begins making a shirt waist.

The Beginning.
Knicker—Primitive men plowed the earth with a sharpened stick.
Bocker—You don't mean to say golf dated that far back?—N. Y. Sun.

Wrong Thing.
At a wedding do not say, "May the best man win."

Has Fewest Doctors.
Russia has the fewest doctors of any civilized country.

Norwegian Moss.
Prof. Hansteen, of the agricultural school at Aas, Norway, finds that a greenish-white moss common in that country can be converted into delicious and nutritious food by being subjected to a chemical process, compressed and cooked. He says that nine ounces of moss, costing two cents, will make a good dinner for six persons—which is evidence that his zeal outruns his discretion, inasmuch as an ounce and a half of food is not enough to make a substantial meal for a normal man or woman.

Locusts in Algeria.
Locusts are devastating southern Algeria. The swarms are so great as almost to defy imagination. It is not easy to conceive of an almost solid phalanx of insects 125 miles long by six miles wide. Unfortunately, the devastation which such myriads of voracious insects must create in vegetation is not so difficult to appreciate. Wherever the host has passed nothing green remains. Even the houses are becoming uninhabitable. The Oran province seems doomed for this year.

Oyster Culture.
The Maryland shellfish commission is studying oyster culture in the proper way by learning in Connecticut just how the thing is done. Oyster culture has long been practiced in France and Japan, to say nothing of Virginia. Many years ago Dr. Brooks' book on the subject laid down the principles that underlie the successful prosecution of the industry.

Oldest Negro Lawyer.
Thomas P. Johnson, 94 years old, the oldest negro lawyer in Arkansas, died recently after 36 years' active practice of law. He was licensed as an attorney by Associate Justice Bowen, of the Arkansas supreme court, in July, 1870. He was a slave, and belonged to a planter in Desha county, in Arkansas.

Good Army.
The governor of Herat has presented the following report to the ameer of Afghanistan: "The behavior of the army is satisfactory, and there have been no cases of serious crime. The Herat army now says its prayers five times a day, and the men are becoming pukka (very good) Mussulmans."

No Admiration for Actorines.
Dr. Light is in Wichita to-day attending to professional business and expects to take in the Bernhardt performance to-night just for instance, although our Dutch blood doesn't care two whoops in a rain barrel for these crazy French actorines.—Kingman (Kan.) Journal.

Metal Getting Scarce.
Aluminum has suddenly come into use for so many purposes where copper and brass were formerly employed that the supply is everywhere far short of the demand. The automobile manufacture is largely responsible for the shortage.

Great Sewer System.
If the sewers of New York city were placed end to end in a straight line they would reach from there to Pike's Peak, 1,710 miles, and the paved streets of the city would make a road along one side of them all the way.

No Happy Medium.
"Yes, I'd be willing to get married if I could only get a wife who was economical and—"
"My dear boy, no woman is ever economical. She's either extravagant or stingy."—Philadelphia Press.

Greatest Street Car City.
New York beats the cities of the world in the length of its street railway tracks. If in one single track its surface, elevated and subway system would extend in a straight line for 1,018 miles.

See Few American Vessels.
Only two American vessels have entered the harbor of Bordeaux in ten years, and those were private yachts which sought refuge during the Spanish-American war.

Country Mail Delivery.
Rural free delivery was established under President McKinley in 1897. During the fiscal year ended 1903 there were 15,119 routes in operation, with 11,700 petitions pending.

Too Intricate.
Perhaps men are as deceitful as women in some things, but they never attempt to transform a yawn into a smile.

Mexican President a Mimrod.
President Diaz returned the other day from a hunting trip with three mountain cats and 17 deer. Mexico's president is only 76.

Horses Come High.
A good carriage horse in Australia costs \$200 or four times as much as the cost 15 years ago.

Poor Management.
The Athens correspondent of the London Mail says the management of the Olympian games was "chaos."

Busy Bodies.
Too many people look for their duty next door.

Bread Vendors in Asia.
Bread is sold from boxes strapped to donkeys in Asia Minor.

Hard to Cure.
"I'm glad to hear that Flatman has inherited a fortune and bought a good farm with it. How does he like living in the country?"
"Splendidly. But when the first day of last May came he forgot himself and went around absent-mindedly looking for a new farm, under the impression that he had got to move."—Chicago Tribune.

Explosive Dust in Mines.
Recent explosions in coal mines have shown that the fine dust which settles on the timber and sides of roadways is an element of serious danger. The risk is kept at the minimum when and where the dust is removed as much as possible and the currents of air forced into the mine through ventilating shafts are made as dry as practicable.

Submarine Monotony.
As a rule with few exceptions, the surface of the earth under the oceans is devoid of striking and abrupt contrasts. It would be monotonous if it were brought to view. The action of the water and the depositing of organic and other matter settling down through the sea have smoothed down the greater part of the subaqueous earth and left it far from picturesque.

Never Lived There.
"Where did you learn the Lord's Prayer?" asked an Atchison Sunday school teacher of a little girl.
"I used to live in Topeka," said the little girl, "and I learned it there."
"Now let me hear you say it," said the teacher to the next little girl.
"I don't know it," said the next little girl; "I never lived in Topeka."—Kansas City Journal.

Labor Unions in Holland.
Every department of labor is united in Holland and all other departments. So the other night the spectacle was seen at the Amsterdam opera house of a crowd of bootmakers and cobblers wrecking the performance of an opera for which nonunion choristers had been enlisted.

Use for Boys.
The ever burning questions: "What shall we do with our boys?" seems to be satisfactorily answered in the following advertisement, which appears in the window of a Farmington road butcher's shop: "Wanted, a respectable boy for beef sausages."—London Tribune.

Feminine Financier.
Disappointed at not winning a prize at school, a girl of Grimsby, England, went to a shop and obtained three pairs of boots "on approval." She pawned the boots, and with the proceeds bought some books, which she triumphantly exhibited at home as school prizes.

Expansion of Opals.
The reason why opals are often lost from their settings is that they expand with heat more than other precious stones, and, consequently, force open the gold which holds them in place, with the result that they ultimately fall out.

She Must Know How.
Under a new law, says Health, of New York, in Norway every would-be bride must exhibit a certificate that she knows how to cook. In Norway a dyspeptic is regarded as a natural curiosity.

"Bad Man" Gone.
In the new Nevada the "bad man" is a missing figure, and the contrast between these present-day camps of Tonopah, Goldfield and Bullfrog, and their predecessors of the Comstock, is wide and impressive.—Outing.

German Women Domestic.
Germany is one of the countries where cycling is taken up least by women. German women seldom go in for much outdoor exercise; they are distinctly domestic in their habits.

Material at Hand.
The gaekwar of Baroda intends to have a baseball nine or two when he gets home. There are some players he can save cheap, without making any references to allusions.

Everlasting Blotter.
The Austrians use a stone blotting-pad that never wears out. A little scraping with a knife cleans it effectually.—Philadelphia Bulletin.

Good Thing.
Mrs. Poppy—I couldn't live a day without you.
Mr. Poppy—That'll save life insurance.—Los Angeles Herald.

Women Burden Bearers.
The women of Scotland carry heavy loads on their backs in baskets, which are strapped around their waists and over their shoulders.

Then an Auto.
The first thing that a girl baby learns to ask for is candy and the second is money.—Chicago Daily News.

Unwilling Service.
There is nothing so easy but that it becomes difficult when you do it with reluctance.—Terence.

Money with Immigrants.
Our million immigrants a year are bringing with them \$25,000,000 a year, besides their labor.

Revelation.
In the midst of his passionate declaration she yawned slightly. Though with her white and jeweled hand she attempted to conceal the movement, it did not escape him. His torrent of burning words ceased. The light died in his eyes.
"But why," he said, hoarsely, "why speak to you of love? You are heartless—heartless. Your yawn showed it."
"Oh, Clarence," she whispered, horror-stricken, "did I open my mouth as wide as that?"

What Lunar Athletes Could Do.
The "man in the moon" must surely regard with amused contempt our much-vaunted athletic records. A good terrestrial athlete could cover about 120 feet on the moon in a running broad jump, while leaping over a barn would be a very commonplace feat. He would find no difficulty in carrying six times as much and running six times as fast as he could on earth, all because the moon attracts bodies with only one-sixth of the force of the earth.—Springfield (Mass.) Republican.

Carried Bullet Long.
J. D. McFall, of Wichita, Kan., had half of a grapeshot removed from his right leg. The ball entered his leg at the battle of Shiloh, on April 6, 1862, 44 years ago. The ball was split in two at the time it entered his leg and it weighed nearly a pound. After carrying this shot around all these years it began to hurt him for the first time recently.

High Happiness.
"Ef you could only break de moon up into gold dollars en have de stars fer small change, maybe you'd be happy; but dat sorter happiness would come too high fer you, so you better try en git along wid dis ol' worl' en thank de Lawd you in it!"—Atlanta Constitution.

Rich Plowing.
Farmers down in Richmond county, on Dry creek, North Carolina, are plowing up coins. On the south side of the creek copper pieces bearing the name of George Washington are being found, and on the north side, the coins unearthed bear the names of kings of England.

Armored Dog.
A German shepherd, living at Lempeke, finding that his dog was frequently attacked by the dogs of a certain place he had to pass, made for his pet an armor of leather, abundantly spiked and covering his whole body. The dog's enemies then carefully avoided him.

Lightning Kills Fish.
A peculiar result of lightning was noticed in France, after a severe thunderstorm. A bolt struck a small pond just outside the city, and it was discovered that the electric shock had killed all the fish in the water, about 1,000 in number.

Social Relations.
Visitor—So you are going to visit your cousins in the country this summer, eh?
Little Elsie—Yes; mamma says they are not stylish enough to visit us.—Chicago Daily News.

Barmaids in Burmah.
